R-4C AUXILIARY REAR CRYSTAL & FILTER COVER:

Sherwood Engineering Inc., 1268 South Ogden Street Denver, Colorado 80210 USA
e-mail: robert@sherweng.com Phone: 303-722-2257 FAX: 303-744-8876 Web:
<http://www.sherweng.com/>

R4C & TR4C NOISE BLANKER DUMMY PLUG:

WA9TGT - Dummy Plug Must Be Used In The R-4C Receiver and TR-4C Noise Blanker Socket When The Optional 4-NB or 34-PNP Noise Blanker Is Not Installed.
Web Site: <http://www.2bradioparts.com/index.html> , Email:
2bRadioParts@gmail.com

DRAKE 'C' & TR-7 PTO Rubber Sleeve:

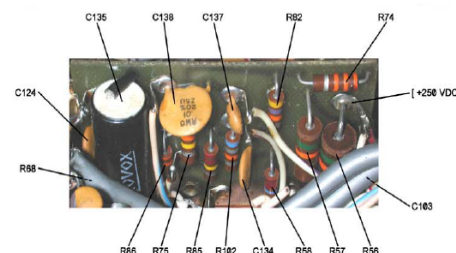

WA9TGT - "Replacement Rubber Sleeve" This rubber sleeve slips over the C-Line PTO shaft located behind the main tuning knob and dial skirt. The old rubber sleeves often become hard and non-pliable.

Web Site: <http://www.2bradioparts.com/index.html> , Email: 2bRadioParts@gmail.com

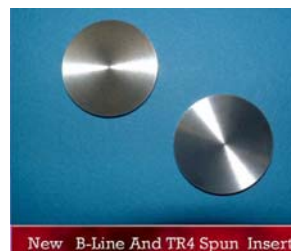

DRAKE SERVICE CD'S :

Service Parts Locator for Drake 2B, 2-C/2-NT, B-Line, C-Line, TR-4, and TR-4C. Each radio comes on it's own CD. The B-Line is \$19, the 2 and 4 Lines are \$25 each, and the TR-4's are \$35 each. Go to Garey's web site for more detail. Garey Barrell, K4OAH, 10912 Virginia Forest Ct, Glen Allen, VA 23060-6503. e-mail: k4oah@mindspring.com , Web: <http://www.k4oah.com/>

B-LINE CHROME CENTER REPLACEMENT FOR TUNING KNOB:

1. Spun aluminum inserts for the Drake "B" Line radios and TR4 transceiver. Listed below are a series of pictures of the new inserts and the last picture shows you how their installed. To make a purchase or for further information please e-mail at the link listed above or call me at 630-879-1132. Alan / KC9YS
2. Inlays for Drake B-Line are \$3.00 each. Charlie Talbott, 13192 Pinnacle Lane, Leesburg, VA 20176-6146 Phone: 540-822-5643 Email: k3ich@ar1.net

C & 7 LINE SPUN ALUMINUM CENTER INSERTS FOR MAIN TUNING KNOB:

I have a large quantity of spun aluminum inserts with clear epoxy coating available to fit several different radios. I have all of the various sizes to fit the Collins S-Line as well as the main tuning sizes for the Drake C-Line and Heath S-B Series. They are all new production and are in perfect condition, individually wrapped for shipment. I have shipped many of them and everyone is very happy with their appearance and ease of installation. For the Drake C-Line main tuning are \$3.00 each. Charlie Talbott, 13192 Pinnacle Lane, Leesburg, VA 20176-6146 Phone: 540-822-5643 Email: k3ich@ar1.net

KNOBS:

Alan / KC9YS, New Drake pointer knobs (with the set screw), individually for \$4 each or a set of 9 knobs including a new preselector knob for \$35. As you know, you can use these knobs on the plate and tune controls where there used to be a spring. The setscrew allows you to set the knob just slightly away from the panel to prevent paint damage. TR-4 & 'B' line main tuning knob \$20. These are New stock, not NOS. To make a purchase or for further information please e-mail at the link listed above or call me at 630-879-1132. Alan / KC9YS Email: kc9ys@sbcglobal.net

KNOBS:

Fred Freeman / N8BX, The original Drake R-4 and TR-7 Plastic knobs weigh in around 1 ounce.. These premium USA made knobs weigh 8 ounces and they tune just wonderful. A spinner makes for fast and easy QSY. It actually makes frequent band changes pleasant and you soon forget how long it takes going from each end of the VFO. This knob is for the ham that uses his radios daily and wants a beautiful weighted knob with a luxurious feel. Installation is easy and all hardware is Stainless Steel. Everything is CNC Machined from billet stock right here in the USA. The set screw that holds the knob in place is a flat tip style (no marring of your VFO shaft) and the spinner is long lasting Delrin. These knobs are first class all the way. I am so sure you will be pleased I will 100% guarantee your satisfaction for 30 days or you may return it for a full refund. P.O. Box 249, Caledonia, OH 43314 **Phone:** (419) 688-1505 Email: n8bx@73cnc.com **Web:** <http://www.73cnc.com/>

Nationwide Radio & Eq. Sales LLC, Mark Olson "President", 1490 Norfield Rd, Suamico, Wi. 54173, Email: ke9pq@new.rr.com Phone: (920) 434-8097

Web: <http://marketplaceadvisor.channeladvisor.com/StoreFrontProfiles/default.aspx?sfid=86409>

Caltronics, 335 Maple Ave., Torrance, CA 90503, **Phone:** (800) 346-4936 or (310) 787-0782,

Fax: (800) 345-0414 or (310) 787-1096 <http://www.caltronix.com/>

- Drake "Bar Knob" that fits all the A, B and C Line radios p/n 50-133 is 0.938" in diameter with a 0.250" dia shaft.
- Smaller knob that goes on the SPR-4, p/n 50-132 is 0.750" dia with a 0.250" shaft. Their p/n 50-1418 is a 0.250" to 0.125" "Shaft Reducer" insert.
- Main Tuning Knob." Best description is that it is a C Line knob but without the spinner button. Their p/n 50-261 is a 1.750" dia / 0.250" shaft "
- The "BAR" Bandswitch knob (p/n 50-161) and the large tuning knobs (p/n 50-133) for the MN-2000. The tuning knobs do have a white indicator stripe on the top of the knob as well as on the skirt, but other than that they are identical.

HAYSEED HAMFEST CO. - Fredericksburg, Iowa Hayseed Hamfest is your supplier of metal can-type and tubular electrolytic capacitors.

e-mail: sales@hayseedhamfest.com Web: <http://www.hayseedhamfest.com/>

WA9TGT - These 4-section replacement filter capacitor module fits in place of the original 4-section filter capacitor can. Fits R4, R4A, R4B, 2A, 2B Receivers. Web Site: <http://www.2bradioparts.com/index.html>, Email: 2bRadioParts@gmail.com

R4A PAPER FOIL CAPACITOR RE-CAP KIT:

WA9TGT - All the needed values are in this R4A Re-cap kit. All capacitors meet or exceed the original voltage rating used in the Drake R4A receiver. Web Site: <http://www.2bradioparts.com/index.html>, Email: 2bRadioParts@gmail.com

PASSBAND TUNING KNOB SHAFT REDUCER:

WA9TGT - Fits all Drake 2-A / 2-B / -2C / R-4 / R-4A / R-4B Series Receivers PBT Knobs Web Site: <http://www.2bradioparts.com/index.html> , Email: 2bRadioParts@gmail.com

R4A, R4B, SW-4A, 2C AUDIO GAIN CONTROL:

WA9TGT - This is an American made 3K replacement AF gain control with the correct audio taper.. They are NOS and were originally designed for the Drake 2-C Receiver, however they also work fine in the R-4A (11 tube chassis), the R4B and the SW-4A Web Site: <http://www.2bradioparts.com/index.html> , Email: 2bRadioParts@gmail.com

2A, 2B, R4 500K AF GAIN CONTROL:

WA9TGT - These 500K AF gain controls are (New Old Stock) and they are the originals used on the Drake 2A/2B receivers. This same AF gain control is also used in the Drake R4 receiver and also in the 13 tube version of the R4A receiver. Web Site: <http://www.2bradioparts.com/index.html> , Email: 2bRadioParts@gmail.com

2A, 2B Dial Strings:

WA9TGT - Dial Strings are .028" OD, pre-cut for correct installation fit. Web Site: <http://www.2bradioparts.com/index.html> , Email: 2bRadioParts@gmail.com

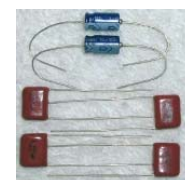

PLATE & LOAD CONTRAOL SHAFT COUPLERS:

WA9TGT - These couplers will replace the old compression style shaft couplers used in the T-4XB / C Transmitters as well as the couplers used in the late version TR-4 / TR-4C series transceivers. Web Site: <http://www.2bradioparts.com/index.html> , Email: 2bRadioParts@gmail.com

2B CAPACITOR RE-CAP KIT:

WA9TGT - All the needed values are in this 6 piece 2B Re-cap kit. All capacitors meet or exceed the original voltage rating used in the world famous Drake 2B Receiver. Web Site: <http://www.2bradioparts.com/index.html> , Email: 2bRadioParts@gmail.com

CRYSTAL CALIBRATOR:

"HeathKitShop" makes a universal calibrator kit that will work with any receiver, including the 2A, 2B, 2C, R4B, etc., receiver. It's a 100khz and 25 khz and you can pulse the marker on and off to find it on a busy band. Web: <http://www.theheathkitshop.com>

WA9TGT - (Direct Plug-In) "Crystal Calibrator" For The "DRAKE" 2A / 2B / 2C Receivers. Completely Assembled and Pre-Tested. Uses a 6CB6 Tube (Included).
Web Site: <http://www.2bradioparts.com/index.html> , Email: 2bRadioParts@gmail.com

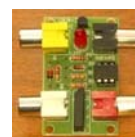

L4 / L4B SOFT-KEY PCB KIT:

Harbach Electronics, Jeff Weinberg - W8CQ, Phone: 419-945-2359, email: info@harbachelectronics.com, Web: <http://www.HARBACHELECTRONICS.COM/> The SK-401 is an interface module which allows your transceiver to key the Drake L-4 or L-4B seeing only 0.7 volts at 1.5 mA. The original Drake L-4/L-4B circuit had +24 volts on the keying line, but this can still cause damage to modern rigs. This unit installs easily in the RF deck.

AMPLIFIER INTERFACE UKA-2 :

HamGadgets.com, Dale Botkin, 16624 Elm St., Omaha, NE 68130-1826
<http://www.hamgadgets.com/> Use this to key *nearly any* solid state, grid-block or even cathode keyed rig transmitter, transceiver or amplifier. This totally silent solid state relay is rated for a whopping **400V DC**, at 400 mA! Use it to key your tube amp from a solid state rig, or keep that high voltage off your straight key - no more getting zapped when you accidentally touch the wrong part of the key!

L4 / L4B PILOT LIGHTS:

1. **Allied Electronics**, 7151 Jack Newell Blvd. S., Fort Worth, Texas 76118 U.S.A., Web: <http://www.alliedelec.com/> , Allied #679-5105 = 'Red', #679-5115 = 'Amber'.
2. **Mouser Electronics**, Part No. 607-1050-C1 for the Red with 6" black leads and the Amber color is 607-1050-C3 is the 'Amber' ., Phone 800-346-6873, <http://www.mouser.com/>
3. **Nationwide Radio & Eq. Sales LLC**, Mark Olson "President", 1490 Norfield Rd, Suamico, Wi. 54173, Email: ke9pq@new.rr.com Phone: (920) 434-8097
Web: <http://marketplaceadvisor.channeladvisor.com/StoreFrontProfiles/default.aspx?sfid=86409>

L4 / L7 AMPLIFIER CAPACITORS: (200 mfd @ 450 VDC)

Axial leads are impossible to find as direct replacements. You will need to get the snap mount variety, or screw lug type and solder appropriated leads to match installation.

1. **Harbach Electronics**, Jeff Weinberg - W8CQ, Phone: 419-945-2359, Par No.: CP-210 SET OF 8 MATCHED 210mF 450VDC COMPUTER GRADE email: info@harbachelectronics.com, Web: <http://www.HARBACHELECTRONICS.COM/>
2. **Mouser Electronics**, Part# 75-TVA1720 (200uf), Part# 598-420C221M450AK8 (220uf), Phone 800-346-6873, <http://www.mouser.com/>
3. **Newark Electronics**, Part# 18F2912 (200uf) Part# 01M7652 (220uf), Part# 52R2409 (220UF), , Phone 800-346-6873, <http://www.mouser.com/>

L75 AMPLIFIER CAPACITORS: (100 mfd @ 450 VDC)

1. **Radio Daze**, Part# C-EA100-450, Phone (800)-456-6494., <http://www.radiodaze.com/>
2. **Newark Electronics**, Part# 30K6603 (100uf) Part# 79K3635 (100uf), Part# 65K2282 (100UF), , Phone 800-346-6873, <http://www.mouser.com/>
3. **Mouser Electronics**, Part# 75-TVA1718-E3 (100uf), Part# 140-XAL450100-RC (100uf), Part#598-SKA101m450 (100uf), Phone 800-346-6873, <http://www.mouser.com/>

L4 / L7 HIGH VOLTAGE REPLACEMENT POWER SUPPLY PCB :

1. **Mike Bryce, of the "HeathKitShop"** makes a universal replacement power supply kits for the L4 & L7. You can obtain just the board if desired FOR \$25, or the full kit for \$100, part number L7R. Phone: (888) 476-5279 Web: <http://www.theheathkitshop.com>
2. **Harbach Electronics**, Jeff Weinberg - W8CQ, Phone: 419-945-2359, Par No.: PM-400 L-4/B/7 POWER SUPPLY \$95. email: info@harbachelectronics.com, Web: <http://www.HARBACHELECTRONICS.COM/>

L4 / L4B SOFT-START PCB KIT:

Harbach Electronics, Jeff Weinberg - W8CQ, Phone: 419-945-2359, email: info@harbachelectronics.com, Web: <http://www.HARBACHELECTRONICS.COM/>
The SS-400 limits inrush current during amplifier start-up by placing a small resistive load in series with the AC mains. The load is switched out of the circuit by the relay a few milliseconds later. The soft-start mounts on the underside of the RF deck and safely limits inrush current to protect the hard to find and costly-to-replace ON-OFF switch, tubes, filter capacitors and high voltage transformers.

L4 / L4B / L7 HV SAFETY RESISTOR:

Harbach Electronics, Jeff Weinberg - W8CQ, Phone: 419-945-2359, email: info@harbachelectronics.com, Web: <http://www.HARBACHELECTRONICS.COM/>
The RES-400 is a direct replacement for the original IRC SPH-style safety resistors used in the L-4/L-4B/L-7 remote power supply. These resistors are designed to open under conditions of high plate current draw from the power supply (tube arch or power supply short) to protect expense tubes and power supply components.

L4 / L4B / L7 REPLACEMENT 50k 50 W BIAS RESISTOR:

Harbach Electronics, Jeff Weinberg - W8CQ, Phone: 419-945-2359, email: info@harbachelectronics.com, Web: <http://www.HARBACHELECTRONICS.COM/> The RES-402 is a direct replacement for the 50KOhm 50 W bias resistor used in the Drake L-4/L-4B/L-7 remote power supply.

L4 / L4B / L7 T/R RELAY:

Harbach Electronics, Jeff Weinberg - W8CQ, Phone: 419-945-2359, email: info@harbachelectronics.com, Web: <http://www.HARBACHELECTRONICS.COM/> The RY-L4B is a direct replacement T/R relay for the Drake L-4/L-4B. It is a 3PDT relay with a 24VDC coil.

L4 - 3-500z GLASS CHIMNEYS & CHIMNEY CLIPS:

1. **RF Parts**, 435 So. Pacific Street , San Marcos, CA 92069 Part No. 5X406, and Part # 275-CLIP, (800) 737-2787, Technical Help: (760) 744-0750, Web: <http://www.rfparts.com/>
2. **Colman**, You can also use Colman's lantern globes for their propane gas lanterns, part number R214D046C. If shopping at your local sports store, the box has a UPC number of 20071213 and on the globe itself is No. 277C043 3009. Web: http://www.coleman.com/coleman/parts/Productimage2.asp?product_id=globe Phone: 800-835-3278, Email: consumerservice@coleman.com.

R4B CRYSTAL CALIBRATOR:

Semi Conductor Museum <http://www.transistormuseum.com> sells the IC1 and IC2 UL923 IC's that are used on the Crystal Calibrator pcb. Email, transistormuseum@aol.com to determine payments options (Paypal or Check) http://semiconductormuseum.com/MuseumStore/MuseumStore_Fairchild_923_Index.htm

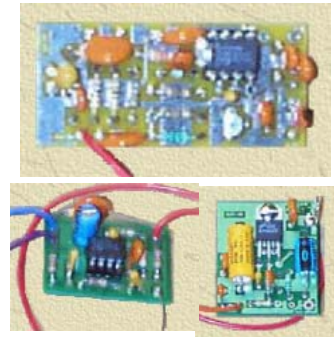

R4C IMPROVEMENTS:

Sherwood Engineering Inc., 1268 South Ogden Street Denver, Colorado 80210 USA, e-mail: robert@sherweng.com Phone: 303-722-2257 FAX: 303-744-8876 Web: <http://www.sherweng.com/ham.html>

First IF Crystal Filters

1. Filter brackets, Crystal and Mode Switch cover plates.
2. PRE-4 Preamp,
3. R-4C Filter Capacitor Replacement Kit
4. R-4C Audio Amplifier
5. R-4C Sold State 3rd Mixer.
6. R-4C Product Detector
7. R-4C New Replacement Power Supply Board

CRYSTALS:

1. **International Crystal Manufacturing Co. Inc.**, Phone: 1-800-322-9426, Web: <http://www.icmfg.com>, <http://www.icmfg.com/hamradio-manufacturers.html> , email: info@icmfg.com
2. **JAN Crystals**, 2341 Crystal Drive, P.O. Box 60017, Fort Myers, Fl. 33906-6017, Phone: 800-526-9825, Fax: 941-936-3750, Email: sales@jancrystals.com Web: <http://www.jancrystals.com/> .
3. **Sherwood Engineering Inc.**, 1268 South Ogden Street Denver, Colorado 80210 USA e-mail: robert@sherweng.com Phone: 303-722-2257 FAX: 303-744-8876. <http://www.sherweng.com/ham.html> Sells crystals for the R4 series only.
4. **M&H Electronics**, 9569 9th Street, Rancho Cucamonga, CA 91730 (800) 643-9825, Fax (909) 945-4971 Web: <http://www.mhelectronics.com/>

W4 WATTMETER CONVERSION TO A PEAK READING METER:

HI-RES Communications offers the famous PDC-1 kit to convert ANY Average Reading wattmeter to true Peak Reading! Other kits will join the PDC-1 in our kit line soon! HI-RES Communications, Inc., 8232 Woodview Dr., Clarkston, MI 48348-4058 USA , E-mail orders: orders@hi-rescom.com , Phone: (248) 391-6660 Web: <http://home.att.net/~hi-res/>

TR-7 ANTENNA RELAY :

1. **Mouser Electronics**, Part Number 655-R10-E1Y4-V18S, Phone 800-346-6873, <http://www.mouser.com/>
2. **DIGI-KEY CORP.** 701 Brooks Ave. South, Thief River Falls, MN 56701-0677, Phone Number: 800-344-4539, Digi-Key P/N :PB121-ND. Web:<http://www.digi-key.com>

TR-7 PIN DIODES (MPN3404 & (UM9401 OR MA4P 1200):

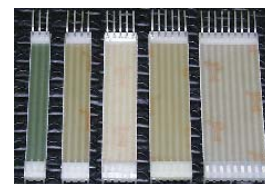

1. **RF Parts**, 435 So. Pacific St., San Marcos, CA 92069, <http://www.rfparts.com/index.html> Phone: 888-737-2787.
2. **Down East Microwave Inc.**, 954 Route 519 Frenchtown, NJ 08825, <http://www.downeastmicrowave.com/> Phone: 908-996-3584

TR-7, TR-5 & Replacement Plastic Side Panels:

Replacement re-manufactured plastic side panels can occasionally be obtained from John Kriner, 927 Lamberton St. Middletown, OH 45044. Email: jkriner@cinci.rr.com Web: <http://www.siscom.net/~jandsuz/index1.htm>

TR-7 SERVICE KIT EXTENDER CARDS:

Service Kit for the DRAKE TR-7 series. The kits includes the 13 board extenders cards and a DIGITAL JUMPER card required to do any real service work on these fine radios. [Bob W7AVK](mailto:Bob.W7AVK) by phone at [509] 766-7277 or check out <http://pweb.amerion.com/~w7avk/> for additional details.

TR-7 RF TRANSISTORS :

RF transmitter power transistors, from:

RF Parts, 435 South Pacific Street, San Marcos, CA 92069, Phone: 800-737-2787, web:
www.rfparts.com

Communication Concepts, Inc., 508 Millstone Dr., Beavercreek, Oh., 45434-5840 Telephone: 937-426-8600, Fax: 937-429-3811 web: <http://www.communication-concepts.com/default.htm>

MRF421MP TR7(A) final output transistors, the MP on the end of the part number means "Match Pair".

MRF455MP TR5 final transistors

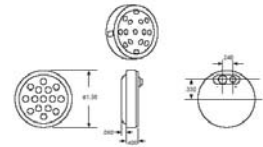

2SC2879 TR7(A) final transistors, but not available in matched pairs.

MRF475MP TR7(A) amplifier driver transistors.

ASTATIC D-104 MICROPHONE CRYSTAL CARTRIDGES:

Mouser Electronics, Phone 800-346-6873, E-mail: SALES@MOUSER.COM,

Part Number: #25LM022, Web: <http://www.mouser.com/>

TR7 / R-7 REPLACEMENT DISPLAY:

For orders in the US and Canada contact,

Jim Pruitt - WA7DUY, 1916 Tolman Rd , Ellensburg, WA 98926., USA.

E-mail: wa7duy@charter.net. to: <http://www.df4nw.de>, Willi Rass,

Richard-Strauss-Str. 56, D-91315 Hoechststadt, Germany. Phone: +49-9193-1826, E-

mail: willibald.rass@t-online.de

TR7 to R-7 Transceiver Cable:

Cables are made with all new materials, 12 pin connectors, separate cabling for the control functions and RF signals, shrink wrap on the cable ends to protect and hold the cables securely to the connectors. These cables are professionally built and assembled and fully tested and perform identically to the Drake original. To order contact RON BAKER at wb4hfn@wb4hfn.com. Web:

<http://www.wb4hfn.com/SALES/ForsaleHomePage.htm>

TR7 & TR5 Power Cable:

Power your Drake TR-7(A) Transceiver from any compatible power supply. This cable includes 4 prong power connector and 4 feet of red/black #10 size cable with connectors to accommodate up to 1/4" bolt. To order contact RON BAKER at wb4hfn@wb4hfn.com.

<http://www.wb4hfn.com/SALES/ForsaleHomePage.htm>

TR-7, SP-7, L-7 PLASTIC END CAPS:

These are direct replacements for the plastic end caps that are located on both the right and left side of the front panels. Michael March, K4QU, 242 Clay Hill Dr., Winchester, VA 22602, k4qu@qsl.net, lmarch@visuallink.com, Phone: 540-662-4279

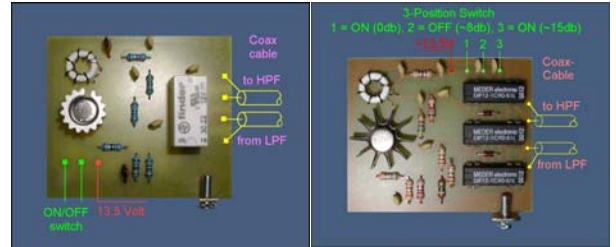

TR7 Pre-Amplifier:

<http://www.df4nw.de/44.html>

A simple Pre-Amplifier for the TR-7 to improve receiver sensitivity on the higher short wave bands. Gain: ~ 15 db, Frequency range: 1 to 30 MHz, Size (HWL): 14x48x58 mm

For orders in the US and Canada contact, Jim Pruitt - WA7DUY, 1916 Tolman Rd , Ellensburg, WA 98926., USA.E-mail: wa7duy@charter.net. to: <http://www.df4nw.de>, Willi Rass, Richard-Strauss-Str. 56, D-91315 Hoechstadt, Germany. Phone: +49-9193-1826, E-mail: willibald.rass@t-online.de

TR7 DDS PTO Replacement:

The N4YG DDS system may replace the PTO in the TR-7 or its remote VFO, the RV-7. When integrated into either of these, the stability and performance rivals that of the best transceivers. Web: <http://www.n4yg.com/>

Radio Repairs:

Jeff Covelli, WA8SAJ, Email: wa8saj@ncweb.com , Web: <http://wb4hfn.com/Services/WA8SAJ/SAJ-Repair.htm>
WB4HFN Vintage Restoration & Repair, <http://www.wb4hfn.com> E-Mail: wb4hfn@wb4hfn.com
John Kriner, KA8GSP, Email: jkriner@cinci.rr.com
T&T Repair, 630 Copano Cove Rd., Rockport, TX 78382, 1-800-687-9161 E-mail: ltaft@2fords.net
