* Specifications are subject to change without notice for improvement.

GENERAL

This headphone is designed exclusively for use with communication system. It provides many hours of comfortable listening and clear sound. This monaural type headphone has a specific frequency response for excellent tonal quality.

FEATURES

- **Ideal tonal quality for communication use**
Mylar film cones are used to ensure clear sound and many hours of fatigueless listening.
- **Open air system for comfortable listening and lightweight design**
Provides natural sound and eliminates uncomfortable pressure feeling. Specially designed for communication use to ensure excellent sound dispersion.
- **Ear-pads can be replaced according to listening conditions**
The ear-pads fitted to the headphone are suited for most of listening conditions. However, they can be replaced with the supplied pressure-fit type ear-pads, if you wish to increase the volume level or when you are using the headphone at midnight or in a noisy room.
- **New design that perfectly matches Kenwood's communication equipment**
