o ICOM

IC-M802

The latest ICOM Digital Signal Processor technology with a compact remote head

Standard 4 \times 8 remote controller

The IC-M802 offers an industry-standard 4-inch tall (10.16 cm) remote controller. When set up with the IC-M502 VHF radio, Icom offers you a complete communications station.

Large LCD with dot matrix characters

You can easily read the alphanumeric name of any of the 1355 ITU channels at a glance with the large LCD display. Nighttime operation is no problem with 10 levels (plus OFF) adjustable backlit display and keypad.

Easy to use in all conditions

The IC-M802 offers two large dials – bank and channel – for easy channel selection. Up to 16 banks of 20 (max.) each for user channels, and 17 banks for ITU channels are available.

Built-in digital selective calling

For added safety at sea, the IC-M802 offers the latest in one-touch DSC emergency communications technology. (ITU Class E standard.) The emergency button is covered by a red, spring loaded hatch to avoid accidental DSC activation.

Digital signal processor advantage The speech compressor, utilizing DSP, increases average talk power. Flexible filter settings provide for narrow band signals like E-mail, SITOR, FSK and other operation without an optional filter.

150W (PEP) of powerful output

150 Watts of power offers superior worldwide communications. A one piece, die cast aluminum chassis and a large cooling fan allow continuous transmission at full output power – very important for data communications, like e-mail.

One-touch e-mail access

An SSB first! The IC-M802 can be set to memorize your HF e-mail access frequency, mode and bandwidth settings. At sea e-mail has never been easier.

* Please consult with an HF e-mail provider for details.

Automatic antenna tuner, AT-140

An optional automatic antenna tuner, AT-140, easily connects to the IC-M802. When the tuner cannot tune the antenna, the IC-M802 bypasses the tuner and displays a warning indicator on the LCD.

Other features

- Wide band receive coverage (0.5 29.9999MHz)
- VFO mode is available (depending on version)
- Remote control mic allows you to select channels directly
- Accessory RS-232C port allows connection of modem, etc.
- GPS input, NMEA 0183 version 2.0 or later
- A headphone jack in front of the controller

SPECIFICATIONS

GENERAL Frequency coverage (Unit : MHz): Rx 0.5-29.9999 (continuous) 1.6- 2.9999, 4.0- 4.9999, 6.0- 6.9999 Tx. 8.0- 8.9999. 12.0-13.9999, 16.0-17.9999 18.0-19.9999, 22.0-22.9999, 25.0-27.5000 : J3E (SSB), J2B (AFSK), F1B Type of emission (FSK), A1A (CW), H3E (AM*) (*Rx only) Number of channels : 1355 (max.) (160 user programmable; 249 ITU SSB duplex; 72 ITU SSB simplex; 662 ITU FSK duplex; 160 e-mail; 21 ITU 4MHz simplex: 31 ITU 8MHz simplex) Antenna impedance : 50Ω (SO-239) Power supply requirement : 13.6V DC ±15% Max. current drain (at 13.6V DC): 30A (typ.) Tx (Max. power) RX (Max. audio) 3.0A

- Operating temp. range : -30°C to +60°C; -22°F to +140°F Guaranteed range : -20°C to +55°C; -4°F to +131°F : ±10Hz (at -20°C to +55°C)
- Frequency stability

OPTIONS

Matches the transceiver to a long wire antenna with little insertion loss. Cable connections are easy to install. AT-130 is also available.

Provides 13.6V DC (30A) output from an AC outlet

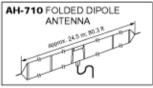

4×4-inch external speaker. Same as supplied. Input impedance: 40. Max. input power: 7W.

MN-100 ANTENNA MATCHER

Match the transceiver to a dipole antenna. Covers all HF bands from 1.5 to 30MHz. Two 8m antenna wires come attached

Water resistant, remote function mic. Same as supplied.

Covers 1.9 to 30MHz band. Has an SO-239 connector and 30m coaxial cable. Easy to assemble (non-kink construction).

Microphone hanger

Spare fuses

370g; 0.81lb

150, 60, 20W PEP (Selectable)

Match the transceiver to a longwire antenna. Covers all HF bands from 1.5 to 30MHz. A 15m antenna wire comes attached.

For mounting the controller or speaker to a panel.

- RC-25 REMOTE CONTROLLER Remote controller head. Same as supplied. · OPC-1106 SEPARATION CABLE 5m (16.4ft) separation cable between controller and main unit. Same as supplied.
- + OPC-1147 SHIELD CONTROL CABLE
- 10m (32.8ft) shield cable to control AT-140.

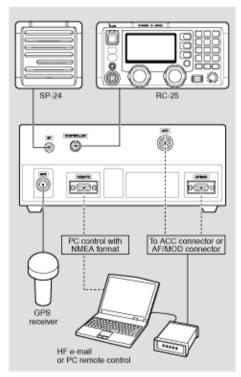

IC-M802

Sensitivity (at 1		EIVER		
	J3E, A1A	J2B, F1B	H3E	DSC (J2B
0.5- 1.5999MHz	6.3µV	-	32µV	0.5µV (at 1% error rate)
1.6- 1.7999MHz	0.89µV	0.89µV	6.3µV
