BRITPART

The quality parts for Land Rovers

Welcome to Version 4 of the Britpart Accessory Catalogue. In addition to adding many more quality parts and accessories for Land Rover owners we've also given this edition a bit of a facelift - we hope you like the result and would welcome any comments.

At Britpart we are always adding new and exciting products to our accessories range, so remember to look at www.britpart.com for all the latest additions. Also worth remembering is that if there is no picture in the catalogue of a product in the catalogue, go to our website as there are plenty more product pictures there.

ABOUT BRITPART

*innovation, quality
& style on demand*

Picture courtesy of Pascal Perrier

The Marque

Britpart is the leading independent wholesaler of parts and accessories for Land Rover vehicles, supplying in excess of 800 customers worldwide from government agencies to trade outlets.

The name 'Britpart' is synonymous with quality parts for Land Rovers and the company has earned a truly enviable reputation around the globe. For nearly 30 years, Land Rover enthusiasts the world over have come to identify Britpart as a brand to be trusted.

The Britpart logo has become a widely recognised and highly respected marque; it embodies excellence in the field, both in quality and commitment to meeting the needs of the customer.

Products

Britpart has always reacted swiftly to the demands of the parts market for all Land Rover vehicles, aiming to provide customers with exactly what they want, when they want it. Parts have long been the mainstay of Britpart's business, with many parts simply being unavailable from other sources; however, accessories are now becoming a major part of the business as owners of Land Rovers, old and new, are customising their vehicles to suit their individual tastes and lifestyles; everything they need is now available from Britpart.

The vast array of Britpart accessories ensures that no two Land Rovers are ever identical!

Land Rover appointed Britpart as an 'Approved European Parts Distributor' for all Land Rover Genuine Parts; this, together with Britpart's own vast range of parts and accessories, along with their extensive inventory of O.E.M. product, has resulted in Britpart becoming the ultimate 'One-Stop-Shop' providing everything its customers could possibly require, all ordered and delivered from one dedicated source.

Quality

Britpart is approved by Lloyd's Register Quality Assurance to BS EN ISO 9001:2000.

Britpart is renowned for quality parts at very competitive prices and takes pride in its excellent customer service, maintaining high stock levels with the aim of fulfilling orders promptly.

Distribution

Parts and accessories for Land Rover vehicles continually flow in and out of the massive state-of-the-art warehouse. Britpart's fleet of vans and trucks all sport the undeniably eye-catching Britpart blue and white livery. Between them they cover the length and breadth of the United Kingdom, including Northern Ireland, delivering directly to Britpart customers on a regular basis, adding to the personal touch that customers have come to associate with Britpart.

Service

Britpart has an enthusiastic and highly knowledgeable team so that you deal with people who have in-depth knowledge of the business. In addition to major government contracts, we successfully support individual parts retailers, supplying spares for Land Rover models old and new including Series, Defender, Range Rover, Discovery and Freelander.

The lively Sales operation boasts three highly trained teams; one each for Home Sales, European Sales and Export Sales with technical experts and sales advisors in each, eager to answer the telephone and organise despatch of goods to their customers within the shortest possible time.

Handmade

The highly skilled team in the Trim Shop make a wide range of seats, seat covers, bases, backs and benches etc for Land Rover vehicles by hand.

Equally skilled is the team in the Lock Shop where a wide range of light engineering work is carried out.

In keeping with the Britpart philosophy, all products leaving the Trim Shop and the Lock Shop are produced to the highest standards and meet with the strictest safety regulations.

Global

When Land Rover finally severed its association with Santana Motor SA it was Britpart who bought up all the existing stock from the factory in Spain and shipped it to their UK headquarters in Shropshire. The shipment included everything from small components to body panels and new engines, along with all the original drawings and tooling. Some of the stock was found to be interchangeable with Land Rover parts and a proportion of the rest is gradually making the journey back home with the assistance of our partner in Spain, Britpart España, Estanfi Automoción.

Britpart's other partners around the globe include: Britpart France, Britpart Belgium, Britpart Brazil, Britpart USA and Britpart Poland.

Britpart is seeking to further expand its comprehensive customer base overseas and is continually looking for well established independent stockists of Land Rover parts to work closely with.

Picture courtesy of Darren Whiley

Quality Parts

Britpart hold in excess of 16,000 stock items from o-rings and oil seals to engines and exhaust systems. Customers can choose from Britpart quality parts, O.E.M. products and Land Rover Genuine Parts; all delivered promptly at competitive prices.

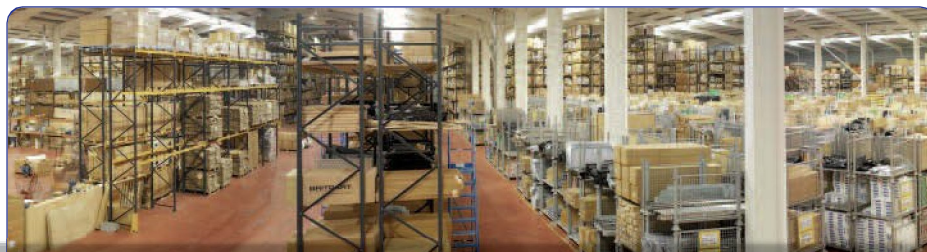

Everything required for servicing, repairing, restoring or even rebuilding any Land Rover can be supplied by Britpart, thus enabling customers to order all they need on just one order sheet making it easy to keep track of stock and take delivery.

Quality Accessories

Britpart have all the latest accessories you need to customise your Land Rover; whatever the model, to look great on the road and work better off it! From wheels to roof racks, Britpart have everything to ensure that no two Land Rovers need ever look identical.

TRANSMISSION GUARD

DA5625
Reduce damage to your Defender 90. Made from galvanised steel, this transmission guard protects your 90's gear box and cross members from snagging and reduces damage to your vehicle. Bolts on and is easy to fit and importantly it is also easy to remove when your vehicle needs servicing. Fits pre-Td5 or can be fitted to Td5 with centre exhaust removed and pipe fitted.

WHEEL ARCH KITS - OFF-ROAD

DA2366

DA2364	Discovery 1/Range Rover Classic	3-door
DA2365	Discovery 1/Range Rover Classic	5-door
DA2366	Defender	

Suitable for Defender 90 from 1984 to present and from 90 to 130 wheelbase and Hi-Cabs. 2" wider than standard enabling tyres up to 14" wide and/or wheel spacers to be fitted while being legal for MOT testing. Made from an unbreakable plastic - ideal for extreme off-road use.

DA1960	Discovery 2	50mm
DA1961	Discovery 2	75mm

These two Discovery 2 wheel arches enable larger tyres to be fitted while still being legal as these arches cover the tyres when wider tyres are fitted. The 50mm ones are required for large off set wheels while the 75mm arches will cover the tyres when wheel spacers are used. They are virtually indestructible and all fixings are supplied with the kit. Up to 35" diameter tyres are ok with a 2" lift and these arches as just over 40mm is cut out of the wings when fitting them.

Carriers

- DA4315** Discovery - cycle carrier
- Roof mounted with stylish aluminium profile • Wheels fit into moulded profile which holds the cycle upright leaving both hands free to secure the frame and wheels • Locking the cycle into frame holder secures carrier to load carrier • Black-painted frame holder tube in special steel • Base unit made of aluminium and UV-resistant composite material • Takes frame diameters from 20 up to 80mm • Max. tyre width 2.2 inches • Manufactured in accordance with DIN75302 • Will fit to both standard and aluminium bars • Weight: 4.2 kg
- DA4316** Scott - cycle carrier
- Stable easy-to-use roof mounted cycle holder • Frame holder with quick attachment for easy fitting without tools • Takes frame diameters from 25 up to 80mm • Wheels rest in adjustable wheel holders and are fastened with strong securing straps • Lockable to roof rack as well as bicycle • Can be fitted on all standard load bars and aluminium profiles.
- DA4317** Barracuda - cycle carrier
- Wheels locate in a moulded profile, which holds the cycle in an upright position - you can use both hands when securing the wheels and the frame
 - When the cycle is attached to the frame holder, the cycle holder is secured to the load carrier • Cycle is secured in the frame holder • Chromium-plated frame holder tube in special steel • Base unit made of UV-resistant composite material • Takes frame diameters from 20 up to 80mm • Max tyre width 2.2 inches • Manufactured in accordance with DIN 75302 • Max weight capacity 17kg
- DA4318** Tahiti 6 - surfboard and canoe carrier
- Stable and gentle holder for surfboards, canoes, kayaks, etc. • Holder comes complete with cradles, straps and a holder for a mast or paddle
 - Rubber-covered cradles are kind to the hull and allow the boat/surfboard to lie steadily during transport

Carrier

STC7969 Cycle carrier

- > The smartest, most elegant solution for loading and transporting a bike on the roof
- > The self-adjusting and upright frame holder into which the bike automatically slides, makes bike loading easy
- > Adjusting and securing is done comfortably and quickly, with a turning knob, at roof height
- > Quick-release straps, adjustable for different wheel sizes, hold the wheels securely in place
- > Light and convenient aluminium design
- > Can easily be fitted on either side of the car roof
- > Lockable - bike to bike carrier, bike carrier to load carrier
- > Best in test
- > Fits frame dimensions up to 100mm

STC7969

Freshen up your Land Rover with a new set of wheels, then secure them with a set of locking wheel nuts.

TYRE REPAIR KIT & AIR COMPRESSORS

Don't get caught out with a flat tyre or two!

*Pack and leave an easy to use Britpart tyre repair kit in your vehicle.**

DA2390 - Tyre repair kit in travel case

How It Works

1. Find and remove the item that caused the puncture.
2. Apply rubber solution to the reamer tool then push the reamer into the puncture and work up and down until the reamer moves easily in the hole.
3. Thread one rubber tyre plug in the hook tool.
4. Push the rubber tyre plug into the hole until 1/2" of the tyre plug remains outside the tyre then turn the hook tool a quarter turn and pull out slowly.
5. Cut off the excess tyre plug as close to the tyre as possible.
6. If the puncture is too big have the tyre fixed by a professional.

**Recommended for off-road use only.*

DA2390

It's no good being able to repair your tyre if you can't inflate it!

- DA2392** Double-pump air compressor
> Air flow - 150ltr/min
- DA2354** Single-pump air compressor
> Air flow - 72ltr/min

See the off-road section for more details on the portable air compressors from Britpart.

DA2392

DA2354

TYRE PRESSURE MONITORING SYSTEM

Are your tyres at the right pressure?

DA4512

This system is an advanced monitoring & alert system of tyre conditions. It monitors tyre pressure and temperature then relays the state of each tyre to a display unit. When any abnormalities are detected, the system will display the status of the affected tyre and sound an alarm to ensure you take action to remedy the problem. Keeping your tyres in good condition at the right pressure can extend the life of your tyres, reduce fuel consumption and improve handling.

Tyres that are at the right pressure will -

- > Improve fuel consumption
- > Increase the tyre life span
- > Help enhance vehicle handling & braking
- > Reduce susceptibility to hydroplaning

System contents -

- 1 x Display
- 1 x Receiver
- 4 x Tyre sensors
- 3 x Display brackets,
- 2 x 3M stickers
- 1 x Instruction manual

Replace your Defender's old tatty door cards with one of these smart plastic replacements. Easy to fit they are also easy to keep clean with a wipe clean finish.

EXTENDED SLIDE SEAT RAILS & BULKHEAD BARS

DA2148

DA2148

Give your Defender seats 3" of extra slide with a pair of these seat rails. Ideal for the taller driver to give a more practical and comfortable driving position. One pair of rails is suitable for one seat.

- > Ideal for the taller driver
- > A more practical and comfortable driving position

DA2351

DA2351

Up until recently, Land Rover hasn't catered (in the Defender) for the people with stature. The bulk head removal bar alleviates the problem without compromising strength. The bulk head removal bar allows an extra 105mm of seat rake at the top and 50mm of travel on the seat base. The tubular bar creates a rigid bracing for the front of the Defender tub. As well as the added benefits of extra room in the vehicle due to the seats been more manoeuvrable, access to the rear of the Defender is now not compromised by a higher bulk head. Powder coated and supplied complete with all the necessary fixings.

All products leaving the Trim Shop are produced to the highest standards!

A COMPLETE BRITPART SEAT

The skilled team in the Trim Shop make a wide range of seats and seat covers for Land Rover vehicles by hand. The material arrives in vast reams and has to be cut with great precision before being stitched together and then assembled into seat bases, seat backs, seat benches etc. In keeping with the Britpart philosophy, all products leaving the Trim Shop are produced to the highest standards and meet with the strictest safety regulations.

DIFF LOCKERS - UPRATED - ARB

Air Locker locking differentials allow you to tackle the toughest terrain. As the world's premier traction aid, ARB Air Lockers keep you moving in all conditions.

ARB Diff Lockers

- > Provides 100% traction on demand without affecting on road driveability or driveline wear
- > Vastly improved traction means less reliance on momentum, thus reducing the likelihood of vehicle damage and environmental impact
- > Easy, convenient operation allows the driver to concentrate on the terrain without leaving the comfort and safety of their seat
- > Ultra durable and extremely strong - only the highest quality materials used in construction
- > Incredibly simple yet effective design that employs minimal moving parts, thereby ensuring maximum reliability
- > Thoroughly tested and proven design - trusted and used in over 80 countries around the world
- > Easy installation and maintenance - no special tools, skills or additives required
- > Two year warranty guarantees the Air Locker will be free of defects in materials

DA4191

Notes: 1 If vehicle was manufactured during 1993, check spline count. 2 Air Locker not available for vehicles equipped with high load option. 3 Ring gear spacer required. Longer ring gear bolts (not supplied) are also necessary - (Land Rover part no. 576521). 4 When an DA4191 Air Locker is to be installed in Range Rovers manufactured prior to 1980 (approx.), special carrier bearings (No. K11300/K11162) may also be necessary - Land Rover part no. RTC3426. 5 Some vehicles have crown wheel bolts which cannot be reused and must be replaced. Consult service manual. 6 P38A is most commonly found in traction control equipped vehicles. Identify P38A type diff by large 205mm [8.07"] flange diameter. P38A was not used on North American delivered Discoverys - use DA4193.

ARB Compressor

- > Designed for Air Locker use
- > High flow, compact 12v compressor
- > Sealed for moisture and dust resistance
- > Hard anodised cylinder bore and Teflon impregnated carbon fibre piston seal for reduced friction and maximum trouble free life
- > Heavy-duty maxi-fuse equipped for professional in-line circuit protection
- > Quality components for quiet operation and extra long life
- > Anodised mounting brackets dissipates motor heat and allows compressor to be repositioned 180°
- > Constructed entirely of lightweight, high strength engineering grade materials
- > Over-pressure safety valve equipped
- > Motor is internally thermal protected against extreme temperature damage

- > Legendary traction
- > Ultimate performance

The legendary Detroit Locker began the revolution in performance differentials and still leads the industry today as an Eaton brand. The Detroit Locker is the most durable and dependable locking differential available. The Detroit Locker maximises traction by delivering 100% of the torque to both drive wheels. It is engineered to keep both wheels in a constant drive mode, and has the ability to automatically allow wheel speed differentiation when required. No other performance differential has the reputation for delivering traction in mud, snow, rocks and on the track. The choice of professional racers and off-road enthusiasts around the world! The durability of the Detroit Locker is unmatched!

Detroit Truetrac

- > Smooth operation
- > Performs open until needed
- > Fully automatic limited slip

Note - when fitting to non-metric diff casings 2 x RTC3095 bearings are required

The Detroit Truetrac was the first helical gear differential ever introduced into the automotive aftermarket as an Eaton brand. It remains the leading helical gear-type limited slip differential in the industry. Detroit Truetrac's proven helical gear design eliminates the need for wearable parts, resulting in maintenance free traction. Recognised not only for its toughness but also its smooth and quiet operation. Engineered to work efficiently in front and rear axles, semi-floating (C-clip axles) and transfer cases. Power transfer is so smooth, it literally goes unnoticed by the driver - even in front wheel drive axles. Proven design, low cost and effective performance, all make the Detroit Truetrac limited slip differential the ideal choice for a wide variety of vehicle applications. No maintenance - just traction!

"Recognised not only for its toughness but also its smooth and quiet operation."

FIRE EXTINGUISHERS

STC8529AA

- > 1kg kit
- > One-handed operation fire extinguisher
- > High rating
- > Checkable & re-chargeable
- > With crash-tested bracket
- > Attractive design
- > Controlled discharge

STC8138AB

- > 2kg kit
- > Long-life - 100% polyester resin coated fire extinguisher
- > Safe handling & crash proof fastening
- > Readiness to operate displayed by manometer
- > Precision brass valve

FUEL TANKS - ADDITIONAL

DA4545

DA4545 NEW

Defender 110 up to 1999 (metal tank, pre Td5 models)
Rear arch spare fuel tank - right hand side - 45 litres
> Supplied with all the necessary fittings to install and use

DA4546

The best way of getting more fuel in to the vehicle without using valuable space or complex pumping systems

DA4546 NEW

Defender 110 after 1999 (plastic tank, Td5 and the new Td4 models)
Rear arch spare fuel tank - right hand side - 45 litres
> Supplied with all the necessary fittings as well as a replacement filler neck and specifically engineered bulkhead fitting for the balance pipe, having these makes the fitting of the tank quicker and easier as well as it working better too.

Note - Both tanks are not suitable for Defender 130

HAMMER - EMERGENCY

DA6500

Life Hammer - The Original

- > Double-sided steel hammer for shattering windows quickly and easily for a safe and quick exit from any vehicle.
- > Razor sharp blade cuts through seatbelts to ease escape.
- > Fluorescent button allows hammer to be located in the dark.
- > Installation mounting bracket ensures hammer is accessible when you most need it.

JACKS - JACKALL

8,000lbs capacity Jacks - Versatile! Rugged! Pow'R-ful!

Built with a patented 'Safety Link', the Maasdam Jackall is the 'Jack with More! Larger base for greater stability. 'Safety Link' mechanism that prevents abuse, misuse and makes operations safer. Jacks come with a lifetime warranty and are built to current ANSI/ASME specifications. When safety and dependability matter most, continue to rely on Jackall.

Features

- > Patented "safety link" mechanism
- > Heavy ribbed, extra large base
- > Cast components
- > Hot roll-formed, alloy steel beam
- > Steel handle locks against beam
- > Powder coated through and through

Benefits

- > Prevents abuse and misuse
- > Provides strength and greater load stability
- > Assures long life, trouble free operation
- > Strong and reliable
- > For convenient storage
- > Reduces scratching, greater corrosive resistance

rugged,
highly versatile jack

DA3120

- DA2243 48" Jack (4ft)
- DA3120 60" Jack (5ft)

DA2243

The Hi-Lift jack is a rugged, highly versatile jack that puts you in command of situations requiring lifting, pushing, pulling, winching, and clamping. Although light in weight and easy to manoeuvre, the Hi-Lift jack offers a rated lifting capacity of 2^{1/3} tons (2,114kgs).

Specifications

- > Approximate weight: 30lbs (14 kg)
- > 4,660lbs (2,113kgs) rated capacity
- > Climbing pins of specially processed steel with 125,000psi tensile strength and 100,000psi yield
- > Steel bar is manufactured of specially rolled extra high carbon steel with 80,000lbs minimum tensile and carbon 0.69 to 0.82
- > Steel handle of 14-gauge high-yield structural tubing with minimum yield of 55,000psi 1^{5/16}" diameter x 30" long

Features

- > Every jack comes complete with an adjustable top clam clevis for use in clamping and winching
- > For speedy disengaging, lifting unity automatically drops away when load is removed
- > 4^{1/2}" (11cm) long lifting nose for positive contact with load
- > Safety bolt is designed to shear at 7,000lbs. (3,175 kg)
- > Steel bar can be reversed for extra long life
- > Low pickup of 4^{1/2}" (11cm)
- > 28" square base plate

Accessories

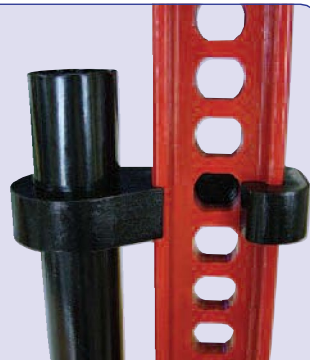

DA2174	Off-road base	Alleviates jack sinkage on soft surfaces. Suits all models.
DA2243EYE	Jacking eye	Spare jacking eye.
DA2248	Fix-it-kit	The maintenance kit contains all the key components for servicing all Hi-Lift jacks.
DA4350	4XRAC	Heavy-duty mounting system for the serious off-roader.
DA4351	Loc-Rac	Conveniently mounts and locks your Hi-Lift jack. Includes lock and suits all models.
DA4352	Jack protector	The jack protector vinyl bag protects your jack from the elements. One size fits all.
DA4353	Lift mate	Designed to provide a lift point from most wheels for quick and easy lifting. The lifting capacity is 5,000lbs/2,273kgs.
DA4354	Off-road kit	The Hi-Lift winching kit includes a winch attachment, winch tensioner, tree strap, d-ring shackle, Hi-Lift gloves and gear bag. Winch time is reduced significantly using the winch attachment and tensioner together.
DA4355	Bumper lift	Designed to fit curved steel bumpers. The rugged design of the bumper lift has a lifting capacity of 3,000lbs/1,361kgs.
DA4356 NEW	Neoprene jack cover	This jack cover offers a level of mud and dirt protection for the main lifting mechanism of the jack when not in use. It zips on easily over the foot of the jack and provides a tight fit.
	Adjustable tube jack mount	Designed for mounting a Hi-Lift® jack to round and square tube bumpers, bull bars, roll cages and roof racks, this accessory allows for easy and adjustable mounting on tubes from 1" to 3" in diameter.
DA4357 NEW	Small set	Is for use on round tubes from 1 to 2" in diameter, which works on many roof racks. It can also be used on ATV/UTV bars, bumpers and roll cages
DA4358 NEW	Large set	Is intended for round tubes from 2 to 3" in diameter that will work on most vehicle bull bars and roll cages

RAISED AIR INTAKES - SAFARI

Pioneered in Australia in the early 1980's, Safari Snorkels were born out of a need to protect 4WD engines from the hazards of dust and water commonly encountered in touring and off road applications. Safari snorkels are manufactured to the highest standards in durable, UV stable, cross linked polyethylene material, using stainless

steel hardware where appropriate. Each system includes quality fixtures and fittings, which offer superior sealing, presentation and long-term durability.

In arguably the best, if not toughest environment, Safari Snorkel Systems are thoroughly researched, tested and tooled for each model of Land Rover. The Safari Snorkel delivers a continuous and cooler supply of air for maximum engine performance. It is positively sealed as well to ensure the best protection against deep water crossings and dust.

ROOF TENTS

Britpart are proud to be the sole European distributor for Echo roof top tents. They are the only heavy-duty tents available with convenient one-piece pitching and self-support.

Roof Top Tents

- > Manufactured from washable UV-varnished PVC canvas with welded seams.
- > 100% waterproof and they have been tested to withstand extreme weather conditions.
- > Ample ventilation is provided by having windows and doors on each side and each is covered with insect netting.
- > Maintenance-free floor - constructed from lightweight aluminium.
- > Comfort is ensured with a 60mm two-layer laminated foam mattress.
- > Removable two-section ladder provides easy access.
- > Quick and easy to store with the fold-up bungee system with dust cover.

'T' Top Tents

The same superior quality design as the above Roof Top Tents but with a unique designed versatile tent that allows access into the main rooftop from inside the tent. The bottom tent has 4 roll-up side panels which could be used as awnings and as doors to access your vehicle from inside the tent. Easy to open and close, no maintenance.

BATTERIES - OPTIMA

DB1018

With its patented *Spiralcell*[®] Technology, Optima batteries offer 15 times the vibration resistance and up to twice the life of ordinary batteries. The Optima is like no other battery found in today's market. Optima's unique patented *Spiralcell*[®] design offers the best technology by providing a strong and clean power source that far surpasses any of today's traditional lead acid batteries. With Optima as your choice, you can count on a longer lasting battery.

DB1020

> Twice the life of ordinary batteries

> 15 times the vibration resistance

Yellow Top

Demand more from your vehicle? Then get more from your battery. Optima Yellow Top batteries are made for the extremes. If your vehicle is designed to take the abuse of off-road driving, you need increased performance and reliability from your battery. Optima batteries combine patented *Spiralcell*[®] Technology to deliver that performance. The deep cycle characteristics of this technology coupled with its extreme resistance to vibration provides performance vehicles with the repetitive power they need, packaged in a spill-proof compact design.

If your vehicle is fitted with high drain accessories such as additional lighting, tracking devices, ICE systems, winches, hydraulics etc, then this ultimately demands more from your battery. Optima Yellow Top batteries provide the extra performance and deep cycling capability that your vehicle demands.

Voltage - 12v Capacity - 55Ah Cold Cranking Amps (CCA) - 765

DB1018	Yellow Top	Top terminals
DB1020	Yellow Top	Side terminals

Red Top

Optima Red Top batteries are built to withstand the abuse 4x4's experience on and off-road. *Spiralcell*[®] Technology immobilises the internal components of the battery, enabling Optima batteries to withstand incredible amounts of vibration.

Vehicles modified for improved engine performance demand more from a battery. Optima batteries withstand the high engine bay temperatures associated with these performance vehicles. The sealed construction makes the battery spill-proof, even if you install it on its side! This prevents external gassing and leaking which can damage engine components and reduce battery performance.

If your battery is used in applications that demand extra reliability endurance and performance, or if you just take pride in getting the best performance out of your vehicle, Optima Red Top batteries deliver the performance you demand.

Voltage - 12v Capacity - 50Ah Cold Cranking Amps (CCA) - 815

BRITPART WINCH - DB8000

DB8000

DB8000 Britpart Pulling Power 8,000lbs 12 volt winch

Features

- > 3.0Kw (4.1Hp) heavy duty electric permanent magnetic DC motor
- > Weather and dustproof contactor controls for longer life and improved amperage draw
- > Hardened drum
- > Planetary gear system for fast line speed
- > Free spooling
- > Automatic load-holding brake
- > Low electric current
- > Power in and power out

Don't forget a DB1014!
When fitting a winch to a Defender don't forget to order the extended winch wiring kit with cut-off switch.

Specification

- > Rated line pull - single line 3,632kgs 8,000lbs
- > Gear reduction ratio 210:1
- > Motor [permanent magnet] 3.0Kw 4.1Hp
- > Drum size [D x L] 63 x 228mm 2 1/2" x 9"
- > Cable supplied 9.53mm x 30.5m 3/8" x 100'
(Galvanised aircraft cable with minimum break force 14,400lbs)
- > Overall dimension [L x W x H] 564 x 179 x 295mm 22.2 x 7.0 x 11.6"
- > Net weight 36kgs 80lbs
- > Mounting bolt pattern 254 x 114.3mm 10 x 4 1/2"

Performance of 1st Layer

Line Pull		Line Speed		Motor Current

WINCH BUMPERS

DA5609

- > Stylish tubular steel space-frame construction for strength to fit Defender with air con
- > Suitable for DB12000i, DB9500i, DB9000C & DB8000 winches
- > Extremely close fitting for maximum approach angle
- > Compatible with many steering guards
- > Built in high-lift jacking points
- > Integral rock guard
- > Supplied with full fitting

DA5620

- > Heavy duty steel winch bumper for Defender
- > Suitable for DB12000i, DB9500i & DB9000C winches

DA5622

- > Stylish tubular steel space-frame construction for strength to fit Defender - no air con
- > Suitable for DB12000i, DB9500i, DB9000C & DB8000 winches
- > Extremely close fitting for maximum approach angle
- > Compatible with many steering guards
- > Built in high-lift jacking points
- > Integral rock guard
- > Supplied with full fitting

DA5623

- > Heavy duty steel winch bumper for Defender with air con
- > Suitable for DB12000i, DB9500i & DB9000C winches

DA5643

- > Heavy duty steel winch bumper for Defender with air-con
- > Suitable for Warn 9000 and 9.5 Series winches

DA5604

- > Stylish tubular steel space-frame construction for strength to fit Discovery 1
- > Suitable for DB12000i, DB9500i, DB9000C & DB8000 winches
- > Extremely close fitting for maximum approach angle
- > Compatible with many steering guards
- > Built in high-lift jacking points
- > Integral rock guard
- > Supplied with full fitting

DA5621

- > Heavy duty steel winch bumper for Discovery 1 & Range Rover Classic
- Note** - not suitable for V8 automatic vehicles
- > Suitable for DB12000i, DB9500i, DB9000C & DB8000 winches

A breath of
fresh air
for your
Land Rover

- > A range of performance filters tailored to fit your Land Rover
- > Maximum breathing efficiency for your engine means more power or better fuel mileage

- > No compromise on quality - the engine gets more air but the dirt particles are trapped by the quality filters
- > No need to replace as easy cleaning means maximum performance guaranteed
- > Easy fit, directly replaces standard air filter
- > Ideal for use in hot dusty conditions to reduce engine wear
- > Compatible with snorkels, ideal for use in conjunction with other performance modifications
- > Filters don't need pre-oiling and if the filter gets dirty there is no need to use a cleaner to clear the dirt on the filter - just use air, water or detergent

BRAKE LUBRICATION **NEW**

Cera-Tec Advanced Lubricant

Mintex Cera TEC is an advanced non-metallic universal lubricant that provides many benefits over traditional copper-based grease.

DA2389

- > Non-metallic content - ABS and ESP friendly
- > Operates to a high temperature (1,000°C)
- > Non-conductive
- > Free of copper and acid
- > More effective at reducing any brake squeal
- > Protects against corrosion and dirt
- > Neutral colour prevents any visible residue or staining

BRITPART

The quality parts for Land Rovers

Increase your braking efficiency

These brakelines are constructed from the finest quality hose, consisting of a PTFE inner and stainless steel overbraid and both the Britpart and Goodridge brands offer -

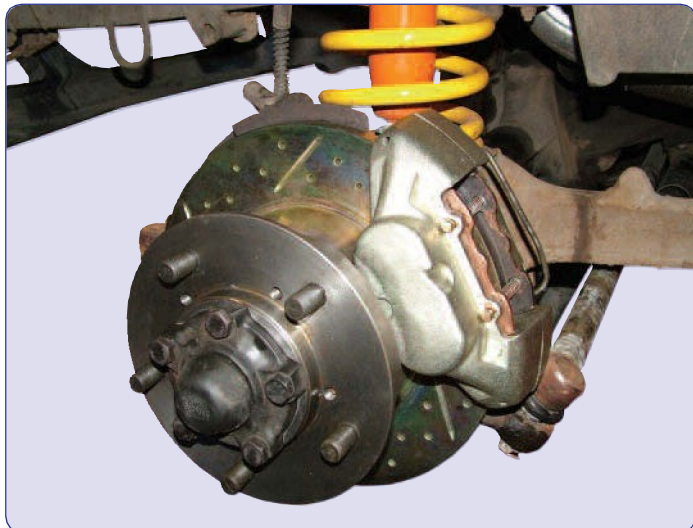

- > Eliminates sponginess under heavy braking
- > Increases braking efficiency
- > Abrasion and corrosion resistant

GOODRIDGE

BRITPART PERFORMANCE BRAKE DISCS

- > Slotted design to increase braking efficiency by reducing dust, debris, water and gas on the disc.
- > To improve brake cooling, reduce weight and to offer an escape route for dirt and gasses these performance discs are drilled with rows of holes.
- > Excellent upgrade for your Land Rover to aid braking, especially under a heavy load.
- > Ideal for off-road use.
- > Manufactured to British Standard BS1452 Grade 220 and DIN1691 GG20.
- > Supplied in pairs.

EBC BRAKE PADS

- > New AF42/66 friction material which completely eliminates brake judder and produces a high friction long lasting brake pad.
- > Unique powder coat finish to both pad and back plate gives lifetime resistance to corrosion and prevents moisture ingress.
- > Unique Brake-In surface coating provides instant brake efficiency on installation and conditions the brake rotor removing glaze, black spotting etc from disc surface.
- > All pads feature centre line slot which prevents heat expansion cracks and reduces brake noise.
- > All pads feature edge chamfers which have major technical benefits;
 - Significant reduction in brake noise
 - Prevents 'edge lifting' under left and right extremities of pad which can cause corrosion ingress and eventual pad de-bond
 - Can extend pad life by virtue of improved pad efficiency
- > Most pads in the Ultimax range features factory fitted noise reduction shims.

* pad sets excludes shims

IMPORTANT BRAKE INFORMATION

For exact change over points with vehicle applications please contact your local Britpart distributor with the full chassis number for the correct application. These references are intended as a guide only.

> Effective brake upgrade for heavy duty braking
 > High friction compound

EBC Yellowstuff brake pads are British made with Aramid fibres such as Kevlar and Twaron and are one of the highest friction brake pad compounds on today's market. Not only high in friction from first application when brakes are cold but extremely effective at higher brake temperatures as encountered in faster driving and towing/trailing. These pads are a favourite with the military and are used on armoured vehicles in several countries to handle the higher loads and heat and offer a good brake upgrade. Fitted with shims chamfers, centre slots and the unique EBC Brake in coating for fast bedding in of new brakes these pads are also long lasting and silent in operation.

- > High friction compound
- > Effective from cold up to high heat
- > Effective brake upgrade for heavy duty braking
- > Long lasting powerful brakes
- > Shims, edge chamfers and slots for silent braking

HANDBRAKE CONVERSION KITS

Beef up your handbrake!

DA5526

- DA5513** Defender 1987 - 2006
- DA5526** Discovery 1/Discovery 2 & Range Rover Classic

Note - will not fit Range Rover Classics with a Borg Warner or LT95 transfer box.

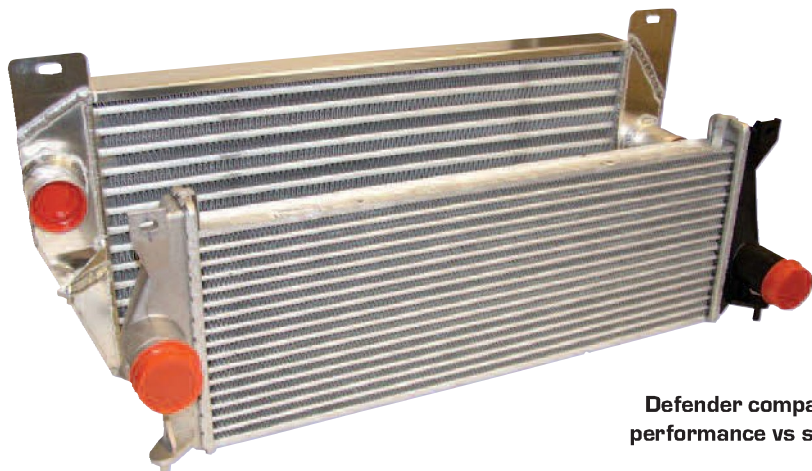

The standard Land Rover hand brake can easily get bunged up with dirt if you drive off-road a lot and once the mechanism gets clogged up it doesn't work as efficiently as it should. Britpart now offer a solution to that problem - a drum to disc conversion kit.

This kit uses a powerful caliper whose mechanism is sealed to prevent the access of mud! The special pads provide greater friction than the standard ones and are resistant from abrasion from mud.

DA5513

INTERCOOLERS - PERFORMANCE

Defender comparison - performance vs standard

These high performance and robust units are constructed from polished aluminium and are 30% larger than the standard intercooler. As a result air has a chance to cool before entering the engine. This cooler air can increase engine power by up to 25bhp [subject to application]. Other benefits include better throttle response and reduction in fuel consumption depending on driving conditions. Ideal for on or off road use. Fully pressure tested, capped and sealed. Manufactured in the UK.

DA4630	Defender 90/110 Td5 - 1998-2006 Inc. air-con vehicles	60mm deep x 300mm high

PSI POWER TUNING PRODUCTS

Performances for Defender Td5:
 Standard: 122 HP 90 kW 300 Nm
PSI: 155 HP 114 kW 365 Nm

The Power Box houses a digital microprocessor which intercepts the fuelling signals being transmitted from the ECU to the fuel pump; it then modifies them to ensure the exact amount of diesel required for enhanced performance. Such efficient use of the fuel optimises consumption, reduces smoke emissions and there is less engine stress, enhancing engine life in many cases.

The Power Box improves torque enabling the vehicle to change gears earlier and hold higher gears at lower speeds, making driving more pleasurable.

The unit fits using the original manufacturers plugs; these existing plugs are opened and the Power Box is secured in between. Full fitting instructions are included with every unit.

Features

- > Plug-in unit
- > No intervention with the original ECU
- > 1-year equipment warranty & 1-year engine warranty - subject to terms *
- > TUV approval
- > Compact size
- > Shock resistant & waterproof
- > Competitively priced

* vehicles up to 40,000km and up to 3 years old

Benefits

- > Can be removed prior to sale or used as a selling point
- > Traceless
- > Peace of mind
- > Quality product which is legal & safe
- > Unobtrusive in interior of vehicle
- > No worries off road
- > A good investment

WEBER CARBURETTORS

DA3049

V8 4-Barrel conversion kit including manifold

The Webcon 4 barrel replacement carburettor kit is a direct replacement for the twin Stromberg or SU carbs fitted to the Rover V8. Calibrated to work perfectly on the 3.5 and 3.9 engines, the Webcon kit is the most complete on the market and features a Webcon modified Weber 4 barrel 500cfm carburettor, intake manifold, air filter and every single nut, bolt washer, gasket and hose that could possibly be needed. The kit adds up to 20bhp at the wheels and transforms the driveability and economy. Starting becomes instant either hot or cold and with no balance adjustment to worry about with twin carbs, the engine is simply superbly smooth as indeed a V8 should be.

AIR LIFT KITS NEW

Adjustable Air Helper Springs

The load and towing problem solver

Air adjustability is the difference! Stiff steel factory suspensions must compromise between ride comfort and load hauling capacity. Smooth ride suspensions can't carry heavy loads; heavy springs ride rough, especially when the vehicle is unloaded. Air Lift adjustable air springs solve these problems by allowing you to tune your suspension under all load and road conditions. Just add air when towing or hauling and then remove air for a softer ride when unloaded.

Features and benefits of Air Lift 1000

- > Improve ride, handling and stability by reducing roll, sway and "bottoming out"
- > Fits open coil springs, front or rear
- > Up to 1,000lbs of levelling capacity
- > Tough long-lasting moulded polyurethane construction
- > Quick connecting easy-to-use engineered polymer air fittings

Air Lift 1000

DA5010 / DA5011

DA5012 Load Controller II

The economical, popular, basic on board air system. This system controls the rear bags equally. All kits include wiring harness for fast, easy installation. To eliminate the major cause of air spring failure, the low pressure sensor automatically activates if pressure falls below the minimum safe level.

DA5012

AIR SPRING CONVERSION KITS

Discovery

It is a sad fact that sometimes the air suspension at the rear of a Discovery 2 will fail. You then have a choice to make. Do you replace it with a replacement air spring system which is comfortable but not comfortable on the wallet or replace with an equally comfortable but much more affordable coil suspension system. Well Britpart have the complete kit for air to coil suspension conversion making your decision that bit easier:

- Kit - 2 x Rear springs; 2 x Isolators; 2 x Spring seats; 4 x Bolts;
- 1 x Instructions

DA5136 Discovery 2 - air to coil conversion kit

DA5136

Conversion to coil springs provides a better, maintenance-free ride

Range Rover

The EAS (Electronic Air Suspension) System found on Range Rover 4.0 and 4.6 vehicles can present expensive, recurring maintenance problems. If you've had an air spring failure before, you know this first hand. Britpart now has a coil spring conversion kit for Range Rover 4.0/4.6 that makes switching to coil springs seamless and error-free. Conversion to coil springs provides a better, maintenance-free ride that will save you significant money over time. The EAS Override Module suppresses all typical false dashboard display errors and buzzers seen when converting to coil springs. Any mechanic or Range Rover owner can install this coil spring conversion kit without having to go to a Land Rover dealer or Autologic-equipped repair shop to eliminate false dash warning light errors. The kit features:

- > Detailed step-by-step instructions.
- > The EAS Override Module overrides all typical computer errors seen when converting to a coil spring system.
- > Eliminates the need for a costly shop visit.
- > Aluminium spring perch adapters.
- > Britpart custom made coil springs provide standard ride height and maximum articulation.
- > Affordable alternative to expensive, recurring air suspension failures.
- > Trip computer compatibility - maintains operation of your vehicle's trip computer.
- > Kit provides everything needed to complete a professional installation.

Black suspension bush sets

DC7100	Discovery 1
DC7101	Discovery 2
DC7102	Freelander
DC7103	Series 1, 2 & 3 - excluding 3 LWB (see DC7104)
DC7104	Series 3 LWB
DC7105	Range Rover up to 1986
DC7106	Range Rover 1986 - 1994
DC7107	Range Rover P38
DC7108	Defender 1999 - 2007
DC7109	Defender up to 1993
DC7110	Defender 1994 - 1999
DC7111	Defender 2007 onwards
DA2426	Defender - steering damper bush set

Britpart -

Yellow suspension bush sets

DC7000	Discovery 1
DC7001	Discovery 2
DC7002	Freelander
DC7003	Series 1, 2 & 3 - excluding 3 LWB (see DC7004)
DC7004	Series 3 LWB
DC7005	Range Rover up to 1986
DC7006	Range Rover 1986 - 1994
DC7007	Range Rover P38
DC7008	Defender 1999 - 2007
DC7009	Defender up to 1993
DC7010	Defender 1994 - 1999
DC7011	Defender 2007 onwards
DA2425	Defender - steering damper bush set

Note - Part numbers without yellow as a suffix indicate the bush colour is black.

DC7008

- > Britpart are proud to present an exclusive range of Yellow and Black polyurethane bushes.
- > Manufactured exclusively for Britpart using the latest Vulkollan™ polyurethane technology.
- > Machined to exact tolerances once cast to produce the highest finish available.
- > Produced in both yellow and black they are both the same compound which gives similar ride characteristics to the standard rubber bushes, but they offer improved articulation, vibration damping and last longer.
- > The black bushes are ideal for replacing individual bushes as they can be fitted without a press.
- > The DC range of kits include shock absorber and A-frame bushes.

Manufactured exclusively for Britpart using the latest Vulkollan™ polyurethane technology

also available in black

DISLOCATION CONES

DA1962 NEW	Defender 110 Rear	Pair
DA2186	Defender 90/Discovery 1 Rear	Pair

These clever products ensures your springs relocate correctly when using your Land Rover in extreme conditions. Manufactured from stainless steel. Use in conjunction with spring retainers.

DA1962

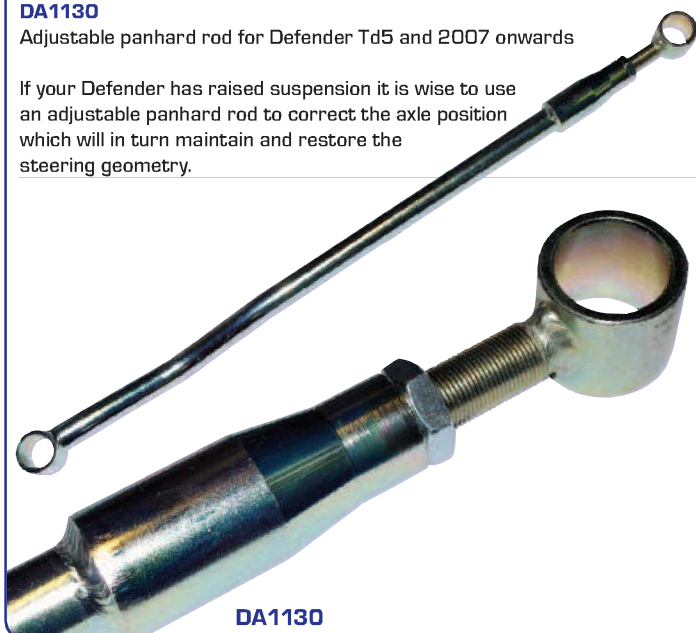

DA2186

PANHARD ROD NEW

DA1130
Adjustable panhard rod for Defender Td5 and 2007 onwards

If your Defender has raised suspension it is wise to use an adjustable panhard rod to correct the axle position which will in turn maintain and restore the steering geometry.

DA1130

POLYBUSH SETS

Polybush sets available from Britpart - full details supplied on request.

DA3144 NEW
Polybush Classic
Full kit for Discovery 3
Kit includes -

- > Front lower wishbone - front bushes
- > Front lower wishbone - rear bushes
- > Front upper wishbone bushes
- > Rear lower wishbone - front bush
- > Rear lower wishbone - rear bush
- > Rear upper wishbone - front bush
- > Rear upper wishbone - rear bush

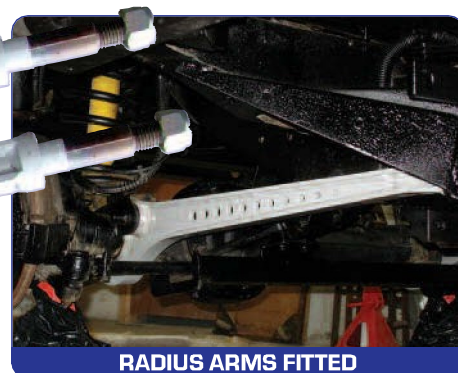

RADIUS ARMS

Designed for vehicles with an extended 1 to 3" lift

DA5505 / DA5506

RADIUS ARMS FITTED

- > Designed for vehicles with an extended 1 to 3" lift.
- > Front radius arms correct castor alignment which in turn ensure safe driving.
- > Rear radius arms provide full rear axle articulation.
- > Fitting the radius arms will contribute to a much better off-road capability for your vehicle by fully utilising your spring and shock absorber set.
- > Zinc passivated with a heavy-duty powder coating finish to complement each component.

DA5505	3° Heavy-duty	Narrow	Use with NTC7307 bush	38mm
DA5506	3° Heavy-duty	Wide	Use with NTC6781 bush	45mm
DA5510	2" Lift rear radius arm			

DA5510

See the end of this section for full details

SHOCK ABSORBERS - BRITPART CELLULAR DYNAMIC

including

BRITPART
CELLULAR
DYNAMIC

- > cellular technology tube
- > sintered 18mm rod
- > piston diameter 41mm
- > polyurethane bush
- > teflon piston with multi-lip seal
- > single piece eye ring

The Britpart Cellular Dynamic Shock Absorber represents a significant advance in Land Rover suspension systems. It features a cellular foam insert instead of a normal nitrogen gas or air, this is to stop the oil from boiling. The foam takes up less room which means more room for oil, 50% more, which offers maximum heat dispersion. This heat dispersion translates to a very subtle but controlled ride that will not fade no matter how hard you push them. They are ideal for a driver who needs more control to complement performance improvements or to enhance a standard vehicle.

The unique design ensures ride comfort and cornering ability is maximised and of course they are superb off-road.

2 year
WARRANTY
50,000
miles*

Terms and conditions apply

** +/- 5mm

Britpart Super Gaz Shock Absorbers offer a 35mm bore tube filled with Fuchs shock absorber fluid, using the best seal available, single piece eye rings, polyurethane bush mounts and a very durable powder coated finish. These offer a vast improvement in ride quality and damping performance. They are ideal for use with either of the Britpart Yellow Spring range or standard Land Rover Springs. Please ask for a CD of the shock absorbers in use or see the suspension section on the Britpart website!

SHOCK ABSORBER BRACKETS NEW

DA6323L

Any extreme force encountered is divided between the two shock absorbers for a more comfortable ride for you and your passengers.

DA6322

DA6322L

DA6323

Kit includes nuts, bolts & washers

DA6324

Sometimes off-road conditions can be serious enough to test the standard equipment on your Land Rover to its maximum. One of the critical components that takes most of the abuse is the suspension system. When using the standard single shock absorber configuration it is not unknown for the shock absorber to break the factory fitted turret mount. These new shock absorber brackets from Britpart give you confidence that your vehicles suspension will tackle the terrain you take it through with greater ease.

The single shock absorber bracket is manufactured from heavy-duty steel and replaces the existing turret mount which is susceptible to corrosion by allowing a build up of dirt inside which is hard to clean thoroughly. The new design is harder wearing and easier to clean.

The twin shock absorber bracket is manufactured from the same quality steel as the single shock absorber bracket but allows for the fitment of an additional shock absorber. The benefits of having extra shock absorbers fitted to your Land Rover is that any extreme force encountered is divided between the two shock absorbers for a more comfortable ride for you and your passengers. Using twin shocks is also beneficial when carrying loads both on and off-road as it improves the load carrying ability of the vehicle. An additional benefit is that when changing shock absorbers there is no need to remove the brackets. **Note** - rear brackets involve some welding to fit.
