Upgrading your Defender

go anywhere in comfort

Three generations of working with Land Rovers.

Are you sitting comfortably?

The iconic Defender and Exmoor Trim have a lot in common – they can both trace their family histories back to the very beginnings of Land Rover.

Bert Gostling helped design the very first Land Rover prototype, back in 1947. His son Lew also joined Land Rover, became head of Experimental Trim and later set up his own company producing trim for Land Rovers.

Today, that proud tradition is continued by Bert's grandson, Julian Gostling, at Exmoor Trim. Still a family-run company, we are also investors

in people – with a skilful and helpful team helping create the items you want for your Defender.

We are proud to be an ISO 9001 company, ensuring the highest standards of quality, and manufacture high end upgrade seats and trims for all models of Defenders as well as quality replacements for original equipment.

Our hoods, which we make ourselves from our own canvas, are acknowledged as the best in the business. Our seats are tested to the highest standards and supplied with full test certificates.

If you own a Defender, there's sure to be something in this catalogue that will make your experience of ownership even more enjoyable. Are you sitting comfortably? **The journey continues...**

X The **Loc Box** from Exmoor trim is incredibly secure with its heavy-duty locking bolt that neatly self-locks when the lid closes shut. With a stylish and tough textured graphite exterior, padded lid trimmed to match your interior with twin fold away cup holders and a neat rear map pocket.

All coming together to create a very stylish in-car safe to keep your belongings secure.

Sturdy Defender Cubby box with padded lid and vinyl trimmed wooden body, twin cup holder and carpet lined inside, brass locking stay and hinges on lid & screw fixings supplied.

Designed to fit all Land Rovers, including the brand new Defender.

Go anywhere in comfort

X The Seat Riser gives you extra legroom and more comfort. These adjustable risers are installed beneath your existing seat runners and allow you to tilt and adjust the seat to your desired position by adjusting the height and rake of your seat.

The seat riser will create more space between the steering wheel and seat back which makes this product ideal for the taller driver. Its substantial powder-coated steel frame allows you to mount the seat runners forwards or backwards in three different locating points. The seat riser is quick and easy to adjust by releasing the turn clamps (two on each side) and setting your seat into one of its 21 new position and then clamp lock into place.

Seat Risers for single seat. Moves seat back and raises up

EXT010-5

The seat riser will only fit Defender seat frame and runners that are single hole mounting as shown.

X Aluminium Gear Knobs

Exmoor Trim gear knobs are designed to fit all Defenders up to 2007 models.

These are supplied as a kit that includes an aluminium polished gear and diff knob, with a simple recess in the top to allow you to fit the decal to match your gearbox type. Fitting only takes 5 minutes & transforms to this new stylish design. Unscrew old gear knobs & screw on new Exmoor Trim gear knobs, once fitted firmly in place attach gel label to match gear box type.

Alloy Gear Knob LT77 & R380 (Inc Hi/Low)

EXT014-1

X Leather Cloth Gaiters will fit any Defender 90/110/130 Land Rover up to 2007. Simply remove the knobs and rubber gaiter and replace with the stylish leather gaiter.

Easy to fit without the need to glue or drill.

Leather Cloth Gaiter = LT77 & R380 Black

more than just a seat

X The Modular Seat from Exmoor Trim provides superior comfort and support.

Offering raised sides to the seat base and back rest with high density foam to give a snug fitting seat with improved lumbar and rear pocket as standard. The seat base can still be removed allowing easy access to your battery, ecu etc.

As with all Exmoor Trim Seats, options are available for Pneumatic Lumbar and Seat Heaters.

Approved by Vehicle Certification Agency (VCA). Mark 1 Impact Tested (Millbrook Testing Ground). Approved Worldwide & Certification Supplied with Every Seat.

A good all round seat ideal for on- or off-road use.

X The New Defender Elite from Exmoor Trim is the ultimate front seat for all Land Rovers. Ideal for Series or Defender Land Rovers the Defender Elite has unsurpassed comfort, support, style and hold.

Raised bolsters in the Defender Elite seat base and back give excellent longitudinal hold. The seat also has higher back for superior comfort and support with advanced lumbar support. The back is reclining with an adjustable twin stalk headrest and removable seat base for battery/storage access. Rear pocket as standard.

Our constant focus on quality with all our products ensures you get the best.

ExmoorTrim®
Go anywhere in comfort

in the hot seat

X **The Mesh Seat** is the seat you need if you are into off-roading, live in a hot climate or just drive a workhorse.

Great for soft top vehicles and if you are caught out in a shower the seat will dispel the water and dry off in no time whilst mud and dust simply passes through the mesh. This seat was originally designed for Military use in the Middle East where it has proved to be very successful. The whole seat only weighs 14.8Kg with its removable seat base and adjustable headrest.

The Mesh seat has been built and designed around Exmoor Trim's new Defender core seat frame. This robust seat is stylish and very hard wearing and supplied with certification.

The seating fabric is Outlast Black Canvas with a Space Tec mesh that's 8mm thick and totally rip stop. The breathable mesh and Outlast combination makes for an extremely comfortable ride with the seats adaptive temperature control keeping you cool with good air flow around you.

This extreme environment seat is built to withstand the rigours of hard use.

X The Standard Defender front replacement seat from Exmoor Trim is supplied complete with runners and all fixings. This is a direct replacement seat for the original front seating used up to 2007 in all Defenders. The seat base is removable and headrest adjustable with reclining seat backs and smooth sliding runners. Individual components are also supplied so you can just replace a tired seat base for a new one, freshen up your seats with a trim kit or just replace a missing handle.

As with all Exmoor front seats these use our new Defender seat frame and are issued with full testing certificate to keep with your log book.

Don't settle on less, safety matters . . .

X Heater & Pneumatic Lumbar supports.

Do you fancy adding that extra to your seat that makes all the difference? Then this is the time to consider installing the heater kit or lumbar supports into the seats. Fitting of these items is complimentary at the time of manufacture and can't easily be retro fitted at a later date in many of our seats. So make sure, if you are considering these as an option, that you order these at the same time as your seats.

The heater kit is supplied as a two seat kit with self adhesive heat pads to do both seat base and back, full wiring loom & twin high/low heat control switches for either dashboard mounting or centre console. This kit is ideal if you are simply recovering your old Defender seats as it's easy to install when the seat is stripped down. The same applies for the Pneumatic Lumbar a great addition giving the driver or passenger the option to adjust the seat back centre support pad to suit your own required shape and position.

Seat Heaters (pairs only) includes wiring loom and switches.	EXT010-2
Pneumatic Lumbar support for adjustable lumbar area.	EXT010-1

interchangeable parts

X Defender Seat Components.

If parts of your Defender seat are worn out and the rest of the seat is fine, you can always consider replacing only the parts you need.

This makes good sense if you have a worn out seat base due to the foam collapsing or it has a torn cover, the seat runners have seized up or simply a new plastic handle to adjust the seat back is required.

All these components are very easy to install and will only take minutes to do.

All our parts are interchangeable with your original seats and moving parts supplied with certification where required.

X Defender Front Centre Seat.

We have options on our front centre seats that allow you to have a centre seat with or without a headrest. The headrest option is not available at a later date. So if you think you require a headrest for this seat you will need to order the correct seat.

The seat base is removable to allow access to the inspection plate and locates into the existing mounting points. We recommend either a static lap belt or a 3 point interior floor mounted belt. This is a specialist belt and allows you to create a 3 point off the shoulder belt without the need for a top mounting point.

upgrade your trim

X Trim Kits.

Put life back into your old seats with these superb trim kits, which are supplied with all you need to complete the job from new foam, adhesive, trim pins and even a comprehensive fitted guide, or you can go onto our website and see the Rugged Guide Video of the seats, with step-by-step instructions on how to achieve the best possible job.

Using a Exmoor Trim kit is a perfect opportunity to upgrade your seats from vinyl to cloth or even XS leather with the twin white stitching whilst remembering that this is an opportune time to install our heater and lumbar kits.

Our kits are designed to be better than the original seat's comfort levels.

active noise reduction

X Acoustic Moulded Matting System.

This is the only front matting system available that is approved by Land Rover and the Ministry of Defence. This is the Kit. Already fitted to most military Land Rovers and used in extreme environments, this kit has proved itself to be up to the job time and time again.

Supplied as a 3 piece kit with the floor & tunnel in one piece with the seat box totally covered and the bulk head centre. Approved at Millbrook testing ground and reduces the noise and heat levels in the front to below required safety standards.

A great way to improve your relationship with your Land Rover!

- Easy to clean
- Heat deflective
- Water repellent
- Extremely hard wearing
- Acoustic rubber underside for noise suppression
- Drastically reduces noise

define your space

A little of the personal touch can transform your interior.

X TD4 Leather Trim Cover Package.

Leather interior upgrades for your New Model Defender.

Finest quality leather with double saddle stitching, quilted leather for the luxury feel, rear pockets with rigid strengtheners and bespoke options on request. Superb overall finish to enhance the interior with a factory fitting option available, the kit is also designed to allow the individual to fit and achieve a great finish.

Exmoor are offering this kit for the new model Defender in options to suit all seating arrangement variations. We are stocking all of these in black leather to form our standard range. However, if you require something extra special and individual we are more than happy to create that interior just for you.

If you want to choose from our bespoke range just phone and ask your nearest Distributor for a sample swatch of your preferred leather colours to help you select the Leather you require.

Increase your leg room

X Standard Style Second Row Seats.

Our standard second row replacement seat bases and backs are available in a wide range of materials to match your existing 110" interior. These seats are simply a replacement for the original equipment and allow the second row seat frame to fold down behind the front seats.

If you require an upgrade from these seats our Classic High & Low back seats are a direct fit into your original 3 single folding frames (see below).

Standard 2nd Row Seats	Backrest	Cushion
Standard 2nd Row Black Vinyl	EXT352-BV	EXT353-BV

Standard 2nd Row Techno	EXT352-TC	EXT353-TC
Standard 2nd Row Raleigh	EXT352-RA	EXT353-RA

X Second Row Extension Kit.

This simple yet clever design allows you to move the seat further back to create more leg room for the taller passenger. The kit will cause the seat back to be raised higher and will leave a gap between the seat back and base (see image).

If you have three-man bench seats installed behind the second row seats, the extension kit will not fit without you removing the bench seats or adapting to the shorter two-man type bench seats or individual folding seats.

Complete Set = to convert 3 seats

EXT010-4

The extension kit will only fit if you have 3 individual folding seat frames.

ExmoorTrim®
Go anywhere in comfort

a classic high

Classic High & Low Back Seats.

These classic upgrade seats are the perfect way to achieve a safer and more comfortable ride. These seats have been impact tested and meet all EEC regulations for retro fitting in a Land Rover.

Extremely sturdy internal metal frame work with high grade foam build and stylish design with integral headrest option to blend with the lower back rest.

Most customers install two outer high back seats and one lower in the centre for better rear view, but you can install in any format you wish, including all high back.

If you still want to retain the fold away feature of your old factory fitted standard seats, you can use all low backs to achieve this, if you use high backs this can still be partially achieved with the seat backs folding down flat as long as you adapt your frames with the Extension Kit (see below).

ExmoorTrim[®]
Go anywhere in comfort

X Second Row Reclining Kit.

Designed for your LWB Defender to convert a 60/40 split bench seat fitted into models up to 2007 into 3 individual seats.

This will allow the seat frame to recline and be adjusted to any angle to suit the occupant. The frame work is all floor locking and supplied with keys so they can't be released unless unlocked, a good feature when children are involved. The kit is only supplied to convert all 3 seats and only our tested High and Low back seats will fit this framework.

This will achieve a set of second row seats with integral headrests for the rear passengers with its winning combination providing superior comfort for the passenger.

The new frame work moves the seats further back at the same time so there is no need for an extension kit with this package, though reclining angles are determined by the position of seats fitted in the rear load area. The seat backs will drop forward but cannot be folded down through 2 stages, as 60/40 or standard second row seats can. Not compatible with 3 man bench seats in the rear load area.

60/40 or standard individual seats require complete removal - **the vehicle requires drilling to fit the new frames** (instructions supplied).

2nd Row Recliner Kit

EXT010-3

X 60/40 Split bench Seat Trim Cover kits.

We can also supply from our range of trim cover kits a complete package of covers to replace the original trim on a 60/40 split bench seat. Please see website for full details.

fold away seats

X Forward Facing Fold up.

An occasional folding seat with its sculptured design and integral head rest. The seat frame is mounted to the wheel arch facing forward with the hinge point firmly bolted into place and the load bearing plates under the floor. The seat when folded away, very neatly stows on to the wheel arch leaving the load area totally free apart from the floor belts.

To use the seat it is simply released from its stowed position (folded into the load area) and the support leg will drop down into position. The seat back will recline into its upright position and fix in place, giving your rear passengers a convenient forward-facing seat with a much-needed increase in height and comfort.

This seat relies on a 4 point seat belt for safety and therefore must only be used with this type of belt. The belt buckle section is permanently fixed to the rear floor centre between the seats when in use. You may need to lower the tank for easy access to install.

Available left or right handed.

X Defender Front Carpet Set.

Quality Front Carpet Sets as you would expect from Exmoor Trim. These carpet sets have been designed to be model specific and we have carefully chosen a carpet that is best suited to Land Rover life!

The floor mats, gear box tunnel and seat box surrounds are all laminated with a closed cell Polyethylene foam, giving these parts sound and heat insulation whilst repelling water.

Also heavy duty heel mats and bound edging on floor mat sections for durability.

We also supply adhesive with the kit to ensure you have all you need.

Full Front carpet set will only fit LT77 Gear box type with all the parts you need.	EXT020-2
---	----------

Full Front carpet set will only fit R380 Gear box type with all the parts you need.	EXT020-1

two or three?

X 2 & 3 Man Bench Seats.

Black powder-coated frames. Rear bench seats are manufactured to blend with your Land Rover interior by using the same frame as were originally used. This enables you to install our metal backed bench backs and cushion pads with your original frames if you have them, or you can simply install the complete seat.

The seat is supplied with all fixings and mounting hardware as well as retaining straps for when the seat is stowed away. We recommend only lap type belts with this seat.

X Inward Facing Tip Up Seat.

Black powder-coated and supplied as a pre-assembled kit with all the hardware you require for installation. You are able to fit two seats in the rear facing inwards on each wheel arch, this also allows you to tip up the base towards the back rest and neatly stow away when not in use. With the seat base tipped up the floor / load area is totally clear so it will not inhibit the boot space.

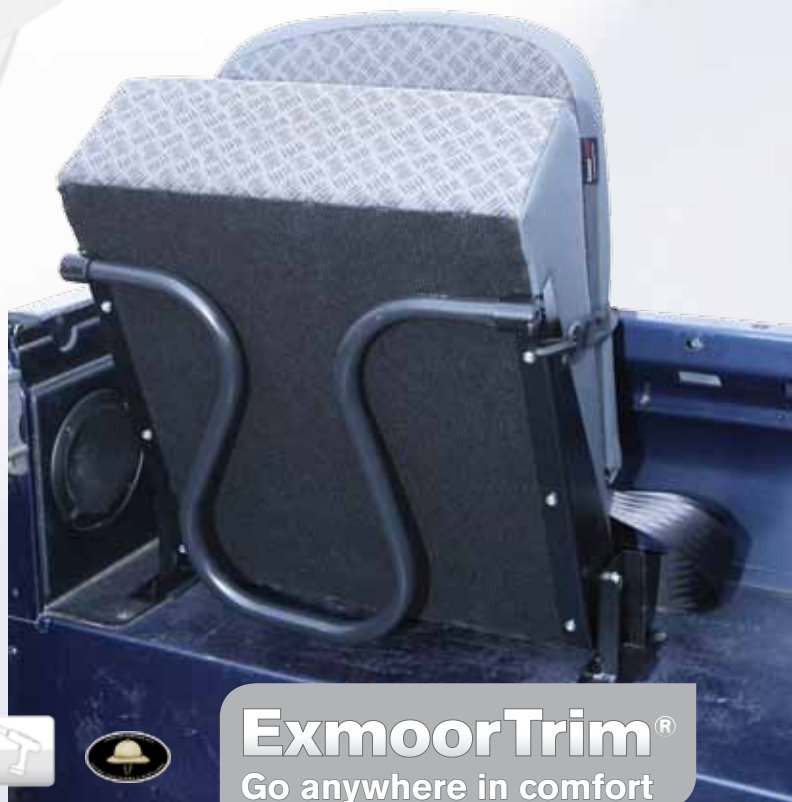

We recommend only lap type belts with this seat.

You can store two seats each side

X Inward Facing Fold Up seat.

An upgrade to this higher-backed folding seat with its sculptured design, whilst still retaining all the features of the standard type of foldaway inward-facing seat. The seat base is unlocked and slides forward towards the vehicle centre and then flips up against the seat back and is held in place with a retaining strap.

The seat will overhang the load area when folded away by 4cm. The seat back is much higher than all other inward facing seats to give that much needed increase in height, hold and comfort for your passengers with this tested seat your passengers will have a much better ride!

We recommend only lap type belts with this seat.

made to last

X Defender Deep Weave Canvas Hoods.

Our skilled staff understand exactly what is required and ensure that all our hoods are made with care and attention to detail.

Exmoor's hoods are hand-made to the highest standard with attention to detail every step of the way. We also manufacture upgrade hoods for your Defender to convert your Land Rover to a Mohair Full hood, Truck Cab hood even Tonneau covers for the rear body and Summer tops with the Bikini hood.

deep  **eave**
c l a s s i c c a n v a s

X Deep Weave Canvas is the new benchmark set by Exmoor Trim when using a 100% natural Cotton fibre. Canvas has many pitfalls and by using modern manufacturing techniques and proofing we have reproduced the original colour, greatly reduced shrinkage and retained all the crucial features that all our customers have come to expect from an Exmoor Trim Hood.

1. **A tighter weave giving superior rain proofing and durability**
2. **Accurate colour matching to original colours with archived canvas samples**
3. **Vat dyed ensuring the colour has penetrated all the way through the cotton canvas**
4. **Improved colourfast rating. Ensuring that the natural UV fading takes longer to occur especially in hot climates**
5. **Cold water shrinkage of the natural cotton fibre greatly reduced**

Warp being -2.5% Weft being -1.0%(warp and weft is the direction of the weave strands). Standard canvas being about 3.5% on the warp and 3% on the weft.

'We still offer hoods from full, three quarter, truck cab to Tonneau Covers suitable for any restoration.'

New 3 in 1 Hood

The 3 in 1 hood is manufactured from the finest quality Stay Fast Hooding and is the Flagship Hood for Exmoor Trim. This is a higher quality hooding material and achieves a better finish than Mohair hooding.

The idea behind the design is to accumulate all the best products into one.

Step One - This has been achieved by creating a hood that can simply be removed, turned into a Stylish Summer Bimini top.

Step Two - To create a Truck Cab Hood by simply zipping in the fume curtain.

Step Three - To achieve a Full Length Hood, locate the rear hood section onto the Bimini hood and zip it in. You can still retain the fume curtain or simply stow it away behind the seats in the protective bag.

ExmoorTrim[®]
Go anywhere in comfort

Build the 3 in 1 hood online at the touch of a button. Visit www.exmoortrim.co.uk

3 in 1 Bimini Hood & Fume Curtain Only	EXT654-1
3 in 1 Rear Hood Conversion Only	EXT654-2
3 in 1 Full Hood package	EXT654-3.
90" Full Hood Stick Set	EXT220-2
90 " Bimini Hood Stick Set Set	EXT220-13

Please note that the 3 in 1 hood will only fit Land Rovers with a TD5/TD4 type screen rail (on left of image).

This Hood will ONLY FIT a standard hood stick set and we can supply the correct type screen rail if required.

The hood is finished to the highest standard and attention to detail every step of the way. The roof sections all have rod stiffeners sewn in to stop the hood from bellowing and flapping, the side panels are all quilted creating a quiet full length hood.

The hood attaches to the body with a clip on system and keeps the clean lines without stud fixings being visible. This hood is designed to fit a standard hood stick and we supply the body fittings that you need to complete the job. This hood is so simple to fit and will totally transform your Land Rover in a couple of hours.

We are also offering the front end Bimini Hood on its own with the fume curtain so you can purchase the rear end full hood conversion separately if you want. This gives you flexibility with your Land Rover to add on at a later date.

X Waterproof Seat Covers.

Black nylon waterproof seat covers from Exmoor Trim are manufactured from an exclusive waterproof material that is totally non slip. This means that you won't slide off the seat and the cover won't slide on the seating fabric. All our black waterproof seat covers are specifically tailored to fit each seat. This guarantees they will enhance the interior unlike a baggy seat cover.

Made to the highest standards and great value.

MELVILL & MOON

The Original Safari Equippers & Suppliers

X Melvill & Moon.

Exmoor Trim is the exclusive dealer for all Melvill & Moon Canvas covers for the Land Rover Brand. This long established company are based in Port Elizabeth, South Africa where they manufacture these fantastic canvas seat covers.

Melvill & Moon canvas seat covers are the ideal way of protecting your seats and enhancing the interior at the same time. The tailored covers fit exactly with twin rear and single zip pocket and front side pocket pen holders, reinforced side panels where you enter and exit with piped finish for style.

Not forgetting that these covers were originally designed to reduce sweating in hotter countries where canvas seat covers are used on most vehicles. The covers are washable and supplied in their own presentation kit bag. We stock a vast range of these covers as we always have satisfied customers.

The Panama weave Canvas is a high quality weave and this is what gives the Melvill & Moon covers the comfort and wear that you expect. The covers are available in two colours Sand & Shot Grey.

The attention to detail and fitting is second to none.

We also stock a large range of seat cover sets for Discovery 1, 2 & 3 models. Range Rover and Freelander are supplied to order.
