Restore your Series Land Rover to it's former glory

A vehicle close to our hearts

ExmoorTrim[®] Go anywhere in comfort

Exmoor Trim is inextricably linked with Land Rover – in fact we have been involved with Land Rover from the very beginning.

Back in 1946, Bert Gostling joined the Rover car company at Solihull. One of his first jobs as a young designer was to work on an experimental four-wheel drive prototype that would eventually become the original Series I Land Rover.

Bert eventually became Land Rover's Senior Design Engineer and his son, Lew, followed in his father's footsteps by also joining the company. Lew eventually became Head of Experimental Trim.

Nobody knew more about Land Rover seats and hoods than Lew, who's son eventually left Solihull for Devon, where he set up his own company making aftermarket seats, covers and trims for Land Rovers.

Today, Exmoor Trim is famous throughout the world for its products, which cover every model and span 62 years of Land Rover development. Our family firm, now run by a third generation, enjoys a deserved reputation for engineering and design excellence. Today, Bert's grandson, Julian Gostling, is head of the family firm.

We are proud of the fact that Exmoor Trim products span those decades to cater for all Land Rovers. Our skilled staff understand exactly what is required and ensure that all our products are made with care and attention to detail.

Julian Gostling
Managing Director

The Restoration Package

This is a great way to completely bring your Series 1 hood & interior back to life with the very best that Exmoor Trim offer. The kits do vary from model to model but the essence of the package remains the same. All you require from front & rear seating to hoods to floor matting, leather straps for seats are all inclusive of this package, even a roll up tool holder as originally supplied.

Meeting the rugged and durable expectation of any Land Rover component.

A vehicle close to our hearts

Series 1

ExmoorTrim®

Go anywhere in comfort

Series 1 Rear Seating

Rear bench seats are manufactured to blend with your Land Rover interior by using the same galvanised frame as were originally used. This enables you to install our metal backed bench backs and cushion pads with your original frames if you have them, or you can simply install the complete seat. The seat is supplied with all fixings and mounting hardware as well as retaining straps for when the seat is stowed away.

Series 1 Hood stick sets

Exmoor Trim offer a quality range of reproduction hood stick sets for the Series 1 Land Rover.

All our hood sticks are to the exact size and bending to ensure that all our hoods fit correctly as they mirror the original drawings.

All our hood stick components are available individually if you are only missing a few items.

Complete hood stick sets are supplied with all nuts & bolts so you have all you need to install.

80" 3 Man Hood stick set - flat	EXT282-3
80" Full Hood stick set - flat	EXT282-2
80" Full Hood stick set - curved	EXT282-1
86" Full Hood stick set - curved	EXT282-4

When ordering hoops for your 80" Land Rover please make sure that you order flat or curved hoops depending on your hood type.

The images at the bottom of the page clearly show the difference between curved hoops on the left and flat hoops used on the bootlace hood to the right.

Series I 80" Hoods

Our skilled staff understand exactly what is required and ensure that all our hoods are made with care. 'We still offer hoods from pre-production hoods with brass gauze windows to bootlace-type early hoods suitable for any restoration.'

In fact, Exmoor Trim offers full packages for restoration projects, with a range of Series I Restoration Kits. There was a bewildering variety of Series I's in various wheelbases and styles during the model's ten-year production run to 1958, but Exmoor Trim can supply kits for each and every one. Everything you need to refurbish your interior and hood! Exmoor's hoods are hand-made to the highest standard with attention to detail every step of the way.

We still use the original patterns.

Series II & III

ExmoorTrim®

Go anywhere in comfort

Series II & III Front Seating

For extreme comfort in your Series Land Rover why not upgrade and fit our high back seats for the driver and passenger. The seat back is twice the height of a standard seat back with integral headrest, rear pocket and internal steel frames for strength and durability (tested). The seat back is designed with the taller driver in mind allowing you to get further away from the wheel. With its sculptured back and raised base sides it will hold you in place off - or - on - road making those longer journeys easier.

Extreme Seat Black Vinyl	EXT370-BV
Extreme Seat Moorland	EXT370-MR
Extreme Seat Techno	EXT370-TC
Extreme Seat Land Rover Logo Black	EXT370-LRBK

Defender Cubby Box

Sturdy centre box with padded lid and vinyl trimmed wooden body, twin cup holder and carpet lined inside, brass locking stay and hinges on the lid & screw fixings supplied.

Removable Zip Up Door Tops

Great New product from Exmoor Trim. The zip-up door top has been designed for the series owner who wants a window that opens all the way. There is nothing more annoying than a series door top for bashing your elbow when trying to rest your arm in hot weather or simply trying to get a good breeze through. The zip-up door top allows you to zip down and roll up the window. It can be protected by the attachable arm rest pad, if required, to prevent scratches. The framework is in a tough textured graphite finish. Simply remove your old door top, fit the new rubber seal supplied and bolt on the Exmoor Trim door top.

It's that easy.

Zip Up Door Top Pair	EXT013-1

Acoustic Moulded Matting System

This is the only front matting system available that is approved by Land Rover and the Ministry of Defence. This is THE kit. Already fitted to most military Land Rovers and used in extreme environments, this kit has proved itself to be up to the job time and time again.

Supplied as a 3 piece kit with the floor and tunnel in one piece, the seat box and transmission tunnel are totally covered. Approved at Millbrook testing ground. It reduces the noise and heat levels in the front to below required standards. A great way to improve your relationship with your Land Rover!

Series Acoustic Moulded Matting System (not V8 or 6 Cylinder).

EXT009-11

Acoustic Floor Matting Front & Rear Floor Mats

The new acoustic floor matting from Exmoor Trim reduces interior noise. Easy to fit, easy to clean, insulating and water repellent, fits with Exmoor Trim carpet sets & is manufactured to OEM specifications as with all our matting. Available as front pairs to fit individual models dependant on gearbox type, second row floor as one piece and the rear load area floor as a one piece removable load mat.

Rear Acoustic 3 Piece Kit

Supplied as a package with the wheel arches separate that attach with removable adhesive strips. The floor piece is separate to enable you to remove for easy cleaning.

Series II & III Front Carpet Set. Quality Front Carpet Set.

High grade close pile automotive carpet, water repellent and rot proof. The floor mats, gear box tunnel and seat box surrounds are all laminated with a closed cell polyethylene foam. Giving these parts sound and heat insulation whilst repelling water. Heavy duty heel mat and bound edging on floor components for durability. Leather cloth gaiter sewn in for a quality finish.

Standard style second row seats

Our standard second row replacement seat bases and backs are available in a wide range of materials to match your existing interior.

These units are simply a replacement for the original equipment and allow the second row seat frame to fold down behind the front seats. If you require an upgrade to these seats our classic high & low back seats are a direct fit into your original 3 single folding frames (see below).

	Black	Grey
Standard 2nd Row Back Black Vinyl	EXT352-BV	EXT352-DGV
Standard 2nd Row Base Black Vinyl	EXT353-BV	EXT353-DGV

Classic High & Low Back Seats.

These classic upgrade seats are the perfect way to achieve a safer and more comfortable ride. These seats have been impact tested and meet all EEC regulations for retro fitting in a Land Rover. Extremely sturdy internal metal frame work, with high grade foam build and stylish design with integral headrest option to match the lower backrest.

Second Row Seat Belts

Exmoor Trim offers an exclusive range of seat belts, specifically designed to fit your Land Rover using OEM parts only, we won't supply any other belt that isn't Type Approved. Exmoor belts will arrive inclusive of all nuts, bolts, spacers, load bearing plates & fitting guides to ensure that you have all you require to do the job well.

Left or Right Hand, Universal fit second row outer 4 point belt	EXT001-10
2nd Row Centre Seat lap belt with anti rub sleeves 109 only	EXT001-2
Mounting Bracket Right hand, Creates Top Mounting Point for 4 Point Inertia Belts For Hard Top Vehicles.	EXT001-11
Mounting Bracket Left hand, Creates Top Mounting Point for 4 Point Inertia Belts For Hard Top Vehicles	EXT001-12

Second Row Extension Kit

This simple yet clever design allows you to move the seat back only further back to create more leg room for the taller rear passenger. It will increase your leg room though the seat back will be raised higher by doing this and will leave a gap between the seat back and base. If you have 3 man bench seats installed behind the second row seating then the extension kit will not fit. The solution is to change from 3 man bench seats to 2 man bench seats. The extension kit will only fit if you have 3 individual folding seat frames.

Complete Set = to convert 3 seats	EXT010-4
-----------------------------------	----------

Most customers install two outer high back seats and one lower in the centre for ease of rear view. However you can install in any format you wish. If you still want to retain the fold away feature of your old standard seats that were factory fitted, you can use all low backs, if you use high backs this can still be partially achieved as long as you adapt your frames with the extension kit (see below).

A vehicle close to our hearts

Series II & III

ExmoorTrim®

Go anywhere in comfort

2 & 3 Man Bench Seats

Black powder coated frames or galvanised for the original restoration project. Rear bench seats are manufactured to blend with your Land Rover interior by using the same frame as were originally used. This enables you to install our metal backed bench backs and cushion pads with your original frames, if you have them, or you can simply install the complete seat. The seat is supplied with all fixings and mounting hardware as well as retaining straps for when the seat is stowed away. We recommend only lap type belts with this seat.

2 & 3 Man Bench Seats Complete with frames.	Complete	Back Only	Cushion Only
2 Man Bench Black Vinyl	EXT002-BV	EXT004-BV	EXT005-BV
2 Man Bench Galvanised Frame Black Vinyl	EXT003-BV	EXT004-BV	EXT005-BV
2 Man Bench Galvanised Frame Elephant Hide Grey Vinyl	EXT003-EHG	EXT004-EHG	EXT005-EHG
3 Man Bench Black Vinyl	EXT006-BV	EXT007-BV	EXT008-BV

For more options please go to www.exmoortrim.co.uk

Inward Facing Tip Up Seat

Black powder coated and supplied as a pre-assembled kit with all the hardware you require for installation. You are able to fit two seats in the rear facing inwards on each wheel arch this also allows you to tip up the base towards the back rest and neatly stow away when not in use. With the seat base tipped up the load area is totally clear so it will not inhibit the boot space. We recommend only lap type belts with this seat.

Inward Facing Tip Up Black Vinyl	EXT050-BV
Inward Facing Tip Up Dark Grey Vinyl	EXT050-DGV
Inward Facing Tip Up Elephant Hide Grey	EXT050-EHG

Inward Facing Fold Up Seat

Upgrade to this higher backed folding seat with its sculptured design whilst still retaining all the features of the standard type fold away inward facing seats. The seat base is unlocked and slides forward towards the vehicle centre and then flips up against the seat back and held in place with a easy clip on retaining strap. The seat will over hang the load area when folded away by 4cm. The seat back is much higher than all other inward facing seats to give that much needed increase in height, hold and comfort for your passengers. With this tested seat your passengers will have a much better ride! We recommend only lap type belts with this seat.

Inward Fold Up Black Vinyl	EXT054-BV
----------------------------	-----------

Forward Facing Fold Up seat

Upgrade to this higher backed folding seat with its sculptured design and integral headrest. The seat frame is mounted to the wheel arch facing forward with the hinge point firmly bolted into place and the load bearing plates under the floor. The seat when folded away neatly stows on to the side leaving the load area totally free. To use the seat, simply release it from its stowed position, unfold into the load area, the support leg will drop down into position and lock. Then raise the seat back to its upright position. When locked this Type Approved forward facing seat increased in height and hold. Available left or right handed. We only recommend 4 point inertia belts with this seat and we offer a kit just for this seat.

Forward Fold Up Black Vinyl	EXT055-BV
-----------------------------	-----------

Elephant Hide Grey Vinyl

Elephant hide grey seating was introduced into mainstream Land Rover production in 1954, and used to great effect in the Series II and IIA interiors.

At the time there were on average 1700 Land Rovers rolling off the production line a week. Taking in to account model variations and seating types, the result was over 1000 seats a day going through the exceptionally busy trim shop.

We now have a material that's a superb reproduction and gives all of the features that are so important if restoring these historic vehicles.

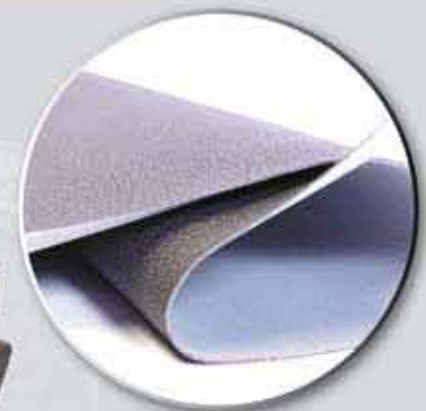

We don't, however, need the cotton backing used on the original materials – quality modern vinyls can give the same effect and long life as this classic material has done for over 40 years.

Exmoor Trim now produce a range of Series II and IIA seating that is simply as good as it gets. The front seat cushions and squabs, although now using modern high quality foam, have superb feel and ride, with the metal back plates beautifully reproduced as original and not with a substandard wooden frame – an important safety factor.

Metal-backed squabs were only ever used and were available with two types of fixing with either bolt or pin type available.

Series II & III Deep Weave Canvas Hoods

Our skilled staff understand exactly what is required and ensure that all our hoods are made with care and attention to detail.

In fact, Exmoor Trim offers full packages for restoration projects, with a range of Series II & III Restoration Kits. There was a variety of Series II & III Land Rovers in various wheelbases and styles during the model's production run to 1985, but Exmoor Trim can supply the complete package for each and every one. Everything you need to refurbish your interior and hood!

We also manufacture upgrade hoods for your series to convert your Land Rover to a mohair full hood, truck cab hood even tonneau covers for the rear body and summer tops with the bikini hood.

Deep Weave Classic Canvas is the new benchmark set by Exmoor Trim for a 100% natural Cotton fibre. Canvas has many pitfalls but by using modern manufacturing techniques and proofing we have reproduced the original colour, greatly reduced shrinkage and retained all the crucial features that all our customers have come to expect from Exmoor Trim Hoods.

Exclusive to Exmoor Trim, this new canvas offers:-

1. Tighter weave giving superior waterproofing and durability characteristics.
2. Accurate colour matching to the original archived canvas samples.
3. Vat dyed ensuring the colour has penetrated all the way through the cotton canvas.
4. Improved colourfastness rating, ensuring that the natural UV fading is prolonged especially in hot climates.
5. Cold water shrinkage of the natural cotton fibre is greatly reduced.

Always over 300 hoods in stock from 1948 to date.

Exmoors hoods are hand-made to the highest standard with attention to detail every step of the way.

We still offer hoods from full, three quarter, truck cab to tonneau covers suitable for any restoration.
