TestBook Information

LAND-ROVER

Issue 2

05/06/96

SUBJECT

Market Programming BeCM

TB008/96/EN

MODEL	AFFECTED VEHICLES	
New Range Rover	LP	**316176 onwards**
	LH	
	LJ	
	LD	

DETAIL

The BeCM programming detailed is for Rest of World, Australia and Gulf markets and is applicable to 1996 and 1997 Model year vehicle's.

Testbook disc version DRF 0007 has a number of changes to increase the market options for those markets identified above, the changes include :-

1. Selecting or.

2. Deselecting of Passive immobilisation and Emergency key access code function for those vehicles.

For certain Gulf markets the option to switch off the overspeed warning buzzer may now be carried out providing they **DO NOT** have a legal requirement for the feature, by selecting middle east market will give Gulf market functionality

Note: This bulletin supersedes the TB008/96 as the information in the process section has been amended

---
