4-WHEEL DRIVE BRUTE IV

LATEST NEWS OF SUZUKI VEHICLES

SPECIAL DELIVERY / SPECIAL ISSUE

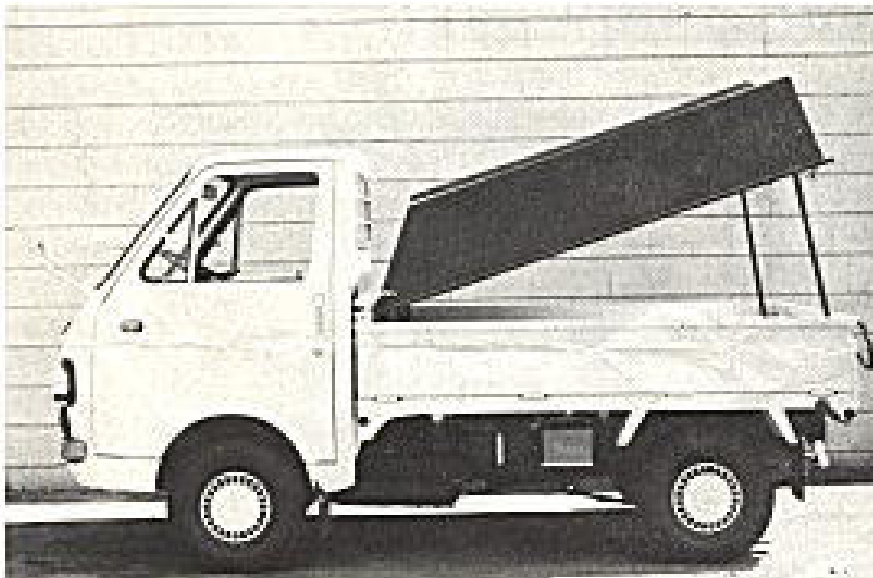

FOUR-WHEEL DRIVE SUZUKI BRUTE IV . . . IT DELIVERS ANYWHERE

If you operate an Auto Parts Store, a Mail Route, a Security Patrol, or any other type of business where deliveries are involved, the Suzuki Brute IV Station Wagon may be what you need. With standard four-wheel drive, four-speed transmission and a weather tight cab, the Suzuki delivers — no matter what the weather! Economical to drive, the Suzuki gets up to 30 miles per gallon and costs less to service.

**SUZUKI PICKUPS HANDLE  
BETTER, COST LESS THAN OTHER  
SMALL TRUCKS**

No small pickup can maneuver and park like the Suzuki  $\frac{1}{2}$  ton pickup. With its mid-engine, it is stable and responsible on street or highway. Around town it can park in a three foot smaller space than the largest selling import pickup. Its large six foot by four foot bed has no wheel wells, and the Suzuki loads easily thanks to drop-side gates. Economy? Up to 38 miles per gallon!

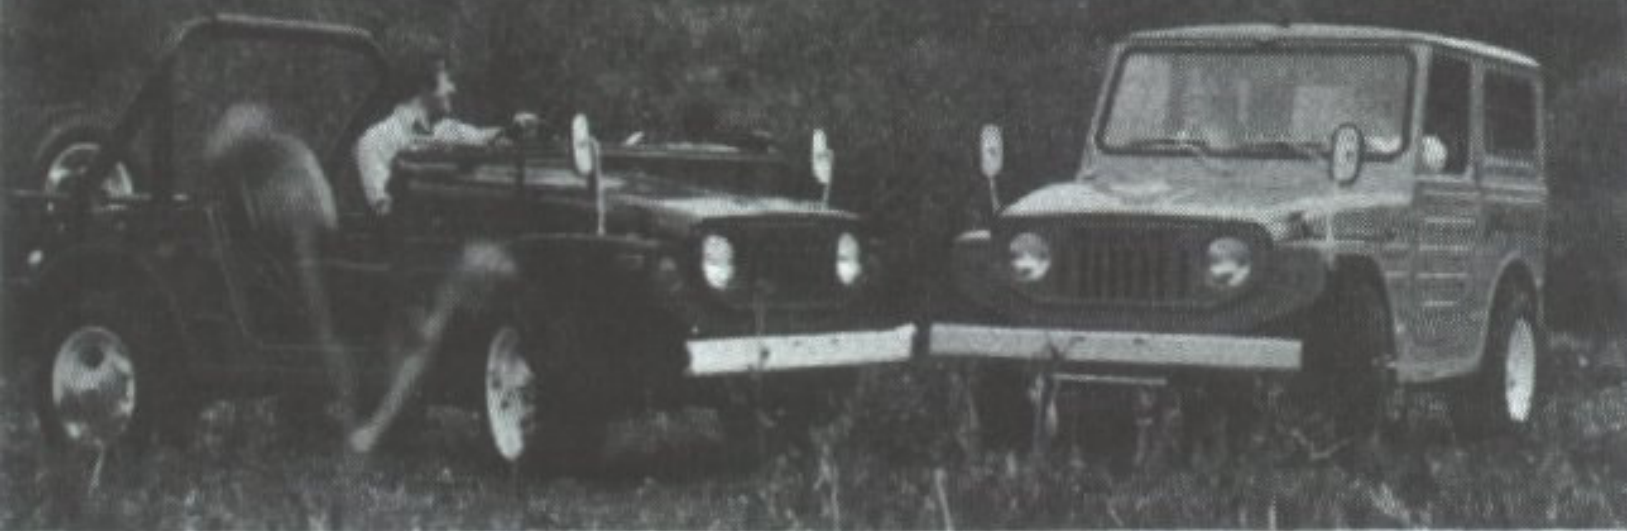

**SUZUKI'S NEW LOW-TOP SECURITY  
BOX PROTECTS YOUR  
VALUABLE CARGO**

Whether you deliver liquor, electronic equipment, art supplies, pizza, or pool supplies, the lockable low-top Suzuki is ideal. It does not hamper your visibility, yet it can carry up to 48 cubic feet of cargo! It's the truck for urban deliveries, yet cruises easily at 60 mph.

*One for the money...Two for the road*

Suzuki Brute IV—the 4WD with great off-road ability—now is available in two models with an all new water-cooled engine. Offering better, smoother on-road performance it's a bit quieter, a bit quicker... plus proven off-road agility. There are still a few air-cooled Suzuki Brutes available at reduced prices. For information on America's lowest priced 4WD, write to: **IEC—Suzuki**

## KING OFF THE ROAD

Suzuki Brute IV. Designed to be the ultimate off-road automobile. Don't let the sport car handling and the economy deceive you. The Brute IV with its narrow body, short wheel base and high ground clearance is a go anywhere four wheel drive automobile. It'll go where the other more expensive vehicles can not go. Anywhere you have the guts to take it. Test drive the King's off-road ability today, it'll make a believer out of you.

See lion-hearted  
**SUZUKI**  
4-Wheel drive

**Rugged, nimble, goes anywhere the other 4-wheel drives can go — but better priced and more economical to run.**

**Soft top \$3,125, Hard top \$3,385**

(Recommended retail prices, including Sales Tax)

The SUZUKI LJ50 has exceptional power-to-weight ratio. This enables it to perform in off-road conditions where only the best of 4-wheel drive vehicles can go — and at much lower fuel consumption.

Design refinements are many, like the unique SUZUKI CCI system which provides constant direct lubrication to all main bearings, the dual line braking system, luxury bucket seating, 9.2 metre turning circle, rigid steel frame and body.

Standard features like heater/demister, swing away spare wheel, locking handbrake are as you would expect from a SUZUKI. Optional extras include roll bar, bull bar, tow bar and electric winch. **Find out more about SUZUKI 4-wheel drive from:**
